2 Women Free Terrorist From West Berlin Prison

BERLIN, May 28 (AP) — Two women carrying pistols and forged identity cards slipped into West Berlin's most heavily guarded prison yesterday and freed Till Meyer, on trial for the murder of a judge and kidnapping of a prominent

But they failed in an apparent bid to free a second accused terrorist — Andreas Vogel — charged along with Meyer in the 1974 mur-der of Judge Guenter Drenkmann and the 1975 kidnapping of poliu-

cian Peter Lorenz.

The women and Meyer, 34, fled along with three female accomplices who had waited in several minibuses outside Moabit prison.

One of the minibuses was found abandoned near the prison, the police said. An apartment in the neighborhood was raided and several persons were detained for

questioning, they said.

The West Berlin police began a widespread search and intensified checks at the airport and highways leading to West Germany.

Justice Senator Juergen Baumann gave reporters this account: The women arrived at the prison

ent rooms at the time talking with their attorneys.

After 4-Year Hold

U.S. Reopens Sale

By Thomas O'Toole

Schlesinger has offered for the first time in four years to sell the nation's future output of enriched

"We can reopen the order books," Mr. Schlesinger said at a news conference Friday, "to fulfill the higher-priced imported oil; it

What this means is that U.S. and foreign electric companies can again turn to the United States for uranium to fuel their nuclear power services of the states for the uranium to fuel their nuclear power services. Schlesinger said he opposes any move to curtail oil production at the Elk Hills Naval Petroleum Reserve, plants, and can expect to obtain the 101 OF 1815 throughout the projected 30-year

average lifetime of the plants.
One reason they can do so is that many who signed orders before the books were closed are cancelling their plans to build nuclear plants, freeing the enriched uranium that had been committed to them. Another reason is that the United States is expanding its capacity to

produce enriched uranium. Other Suppliers Used

In the four years since the United States closed off enriched-uranium orders, many nations planning nuclear power plants turned to France, the Soviet Union and a triumvirate of Great Britain, the Netherlands and West Germany: All three suppliers expanded their turichment plants to meet the

The United States has been anxious to maintain its dominance of the world's enriched-uranium market for more than business reasons If the United States supplies another nation with enriched uranium, it has the power to negotiate the terms under which the exteremely lissionable plutonium can be ex-

tracted from the waste products. The United States has three plants that enrich uranium with the issionable isotope U-235 so it can be used to generate electricity. They are at Oak Ridge, Tenn.; Paducah, Ky., and Portsmouth Ohio. Those plants could provide sufficient enriched uranium to generate 335 million kilowatts of elec-

That limit was almost reached June 30, 1974, when Dixie Lee Ray. TURN ! then chairman of the Atomic Ener-PAGE By Commission, closed off orders for uranium enrichment. for Mo

Orders Cancelled

CLASSEE But since then a number of com-Panies that placed orders before the suspension have told the United States that they want to terminate their contracts. These companies account for about 23 million ki-

lowaits of generating capacity.

At the same time, the United States has begun to expand the cato movies or concerts, or to read and write. But he clearly savors this pacity of the three plants and has authorized construction of a fourth plant at Portsmouth, Ohio. The fourth plant will begin operation by 1984.

The new plant has been designed to be expandable as often as every two years if demand for nuclear fuel continues to grow. By 1990, the new plant could produce enriched

uranium for almost 300 million kilowatts of electricity by itself. Besides reopening the uranium order books, Mr. Schlesinger also described a plan to iron out what he said were "inequities" in the oil

entitlements program. Under this new plan, Mr. Schles-

Till Meyer at 8:45 a.m., presented identifica-tion cards indicating they were law-yers and asked to be admitted to a prison reception area containing several small rooms where lawyers can confer with their clients. Vogel and Meyer were in differ-

S. Africa Press

EAST LONDON, South Africa, May 28 (AP) — State action and intimidation against the South African press has reached alarming proportions, the South African Society of Journalists said at its annual congress here yesterday.

"Pressure for legislative sanc-nons and controls has been re-placed by constraints and harassments in practice," a statement

It said that, since March of last year, 50 journalists have been affected by the actions of state agencies, including detentions without trial; the banning of three individuals, two newspapers, the union of black journalists and its journal and charges under the Riotous Assemblies Act of illegal possession of banned literature and perjury.

In Crackdown on Dissent

Egypt Curbs 5 Noted Writers

By Christopher S. Wren

CAIRO, May 28 (NYT) — Five prominent Egypnan journalists and writers, including a confident of the late Gamal Abdel Nasser, have been forbidden to leave the country pending an investigation into their writings published abroad, which authorities contend bave slandered

The development has added a fresb dimension to President Anwar Sadat's crackdown on dissent. The best-known target of the new investigation is Mohammed Hassanein Heikal, the former editor-in-chief of the authoritative newspaper Al Ahram who also served as minister of information under Mr. Nasser.

Mr. Heikal was dismissed from Al Ahram in 1974 following policy disputes with Mr. Sadat that in cluded the president's alienation of the Soviet Union. He since has devoted himself to writing books and articles for publications abroad. notably "The Road to Ramadan," best-selling inside account of Egypt's secret preparation for the

war with Israel in October, 1973. Another journalist under investi-gation is Mohammed Sid-Ahmed. who once wrote lead editorials for Al Ahram under Mr. Heikal. Mr. Sid-Amhed, a political leftist, gained a literary reputation abroad for his book, "After the Guns Fall Silent," which analyzed prospects for normal relations between Israel and its Arab neighbors.

Poet on List

The list also included Ahmed Fued Negm, a folk poet whose pro-test lyrics, set to music by the blind ballad singer Sheikh Imam, have circulated throughout the Arab world. The other two are Ahmed Hamroush, a one-time editor of the political weekly Rose cl-Yousef

Decision Is Surprise

Sadat Stops Resort Oasis **Planned Near Pyramids**

everyone, the Egyptian government has yielded to public pressure and canceled the contract for a multimillion-dollar resort community that was to have been built with foreign investment in the desert wasteland overlooking the famed Pyramids of

An official statement circulated today in the Cairo press quoted President Anwar Sadat as saying that "Egypt's historical heritage should be preserved" and directing that national feelings be considered in undertaking future economic

The contract's abrogation appeased Egyptian environmentalists, who have claimed that the development was set up on land that had been previously set aside for preservation and that beld potential archeological finds.

President Sadat, who has come

under fire for defending the project, was evidently unwilling to become embroiled in the issue while he is undertaking a crackdown on his political critics.

Developers Surprised

It appeared that the Egyptian government had not consulted offi-cials of the Egyptian Tourist Devel-opment Co., the joint-venture firm set up to handle the project, before making the announcement that it

was being abandoned. The company's chairman, Salah Abdel Wahab, was abroad when the announcement was made and other stunned officials declined to comment until they could learn

The Egyptian government had previously agreed to lease 10,000 acres of desert for the resort, which was to be huilt no closer than two kilometers (about a mile and a quarter) from Mycerinus, the smallest of the three ancient pyramids.

Room for 40,000

According to the developers, the resort would have accommodated 40,000 residents and guests, with five hotels, 6,000 villas, 5,500 apartments and a 200-acre golf course adorned by a small artificial lake. The developers estimated its evenrual value at \$500 million.

A company source wondered whether there had been a misunderstanding, and ventured that the contract might only be renegotiat-

But that possibility appeared to be ruled out by today's announce-ment, which said that Premier Mandouh Salem was calling for operations to be halted and the According to the company's gen-

eral manager, John Parker, at least \$4 million has already been spent on the resort, excluding administra-

Taken by Surprise When contacted toady, Mr. Heikal expressed surprise at the steps being taken against him and said that he had not participated in political activities.

'I'm astonished really," he said. To express a different point of view, I don't see this as a crime." He added that be would consult his attorney before deciding how to respond to the investigation.

U.S., Russia Air Discord Over Africa

By Murrey Marder

WASHINGTON, May 28 (WP) President Carter and Soviet Foreign Minister Andrei Gromyko sharply disagreed yesterday over African policy, but the Soviet dip-lomat maintained hope that the discord would not derail the com-pletion of a new nuclear arms limi-

tation pact.

A public clash — more severe than strategists on either side had anticipated — developed after Mr. Gromyko emerged from four bours of discussion at the White House, sounding relatively optimistic about the grinding strategic arms limitation talks.

When reporters turned the ques-tioning to African issues, however, Mr. Gromyko said:

Of course we do have differences, and I think , . . that the infor-mation which the president has at his disposal is not correct — that is

"We bave no intention of grabbing either the whole of Africa, or is parts. We don't need it."

White House Press Secretary Jody Powell firmly countered after consultation, that "the president wishes to make it completely clear that there is no doubt in his mind about the accuracy of the information which he has received and which he has conveyed publicly to the American people and privately to the foreign minister."

Mr. Powell was referring to Mr. Carter's charge in his Chicago press confernce on Thursday in which the president said that Marxist Angola "must bear a heavy responsi-blity for the deadly attack" into Zaire's copper-mining Shaha province, and that the responsibility is

"shared by Cuba." The Carter administration has charged that Cuba trained the invaders, who were armed with Soviet weapons. Mr. Carter added on Thursday that, unless the Kremlin leaders "show some constraints" in Soviet-Cuban actions in Africa. that could "make it much more difficult to conclude a SALT agree-

French Unit **Withdraws** From Zaire

Local Army Fortified

To Protect Kolwezi By David B. Ottaway

KINSHASA, Zaire, May 28 (WP) - Most of the French legionnaires involved in last week's dramatic rescue of whites trapped in Kolwezi, southern Zaire's big mining center, pulled out today, leaving behind only a small rearguard force to help the Zairian Army protect the town against possible fu-

ture rebel attacks,
All but about 150 of the 700
French troops were said to have left overnight for the Shaha province capital of Lubumhashi, where they are expected to remain a few more days before being flown back to their base in Corsica.

Before leaving, the legionnaires destroyed the vast quantities of rehel arms that they captured or found in caches inside the African

quarters of the city. The departure of the legionnaires has been partly compensated for by the arrival of more Zairian troops, but it is doubted that many of the 2.500 Europeans who once lived in Kolwezi will return without additional foreign troops being sta-

noned there. Zaire President Mobutu Sese Seko, who has been in Paris, is scheduled to visit Morocco tomorrow for talks with King Hassan on the possibility of his sending troops to provide the core of a pan-African force in Shaba province.

Morocco bas already sent 40 to 50 officers but has said only that they are here to organize the transportation of a pan-African army. The Zairian news agency reported that Senegal, Mali, Gabon and Morocco had responded invorably to Zaire's call for military assist-

ance, but that none has actually sent combat troops. Belgium has kept a battalion of paratroopers in Kamina, 140 miles north of Kolwezi, and some of them have been dispersed to Lubumbashi and several other Shaba province towns where there are Europeans to help calm their fears of being attacked by the rebels. The Belgians carried out the evacuation of most of the Europeans from Kolwezi but have since been criticized for turning the mining center

into a ghost town. The entire white population has in fact abandoned the mining cen-(Continued on Page 4, Col. 3)

But French Force Is Changing

Legionnaires Keep Image as Crack Unit

By Joseph Fitchett

CASTELNAUDARY, France, May 28 (1HT) — The French For-eign Legion's dash to Kolwezi and paratroop jump into a hostile town was a military exploit fully in the tradition of this corps of professional soldiers — many with a past to hide and nothing left in the outside world. Yet, it was performed by a force which is changing into an integral part of the French Army, harbors fewer mercenaries and criminals and relies on teamwork and training instead of the tough individual trooper.

In the biggest change of all, the legion — called foreign because theoretically only foreigners can join — now appears to contain a majority of Frenchmen, who prefer this military farternity to the regular army. A French recruit is simply told to say that he is from Quebec

to explain his French. The Foreign Legion is still a shock troop, and the relief of Kolwezi was assigned to the legion's airborne regiment. For most of the men, it was their first

was the clearing of the guerrillacontrolled Algiers Casbah. Now down to 8,000 men, the legion has units in Corsica, Diibouti. the Indian Ocean island of Mayotte, Devil's Island and the Pacific nuclear-test site at the Mururoa

Atoll. The legion is divided into armor 600-man outfit belongs to France's 11th Division set up by Charles de Gaulle for rapid intervenuon in Africa. A paratrooper is always on alert in the 11th Division.

The legion's 2d R. E. P. drew the Kolwezi assignment, reflecting the legion's African experience. Legionnaires have played a central role in Chad's recent hrush wars, and, in a firefight in 1976, the 2d R.E.P. stormed a school bus in the desert outside Djibouti where Somali-backed rebels had taken hostage a class of French children.

No Surprise

The success of the 2d R.E.P. in Zaire did not surprise legionnaires

A new batch of volunteers men in their 20s, a mixture of nationalities, languages and phynationalities, sanguages and physiques, agreed that the Zaire operation showed the legion's strengths. German instructor said, only half in jest, "When they heard the legion was coming they started running.

The Sea Swallows were formed by a Nationalist Chinese who later returned to Taipei and who now had a front page article in the Paris serves in Taiwan's legislature.

As the Vietnam war ended in 1975, the Nationalist Chinese Emhassy was besieged by its citizens and Vietnamese seeking help to leave Vietnman. But according to Taiwanese sources few, other than the embassy staff and a few key personnel, were aided.

number of them have become teachers, engineers, doctors and high level technicians, it said.

On the contrary, Vietnamese residents in China enjoy only limited rights. During the last 20 years Vietnam has drawn China's attention to these facts, but the situation has not been improved, it added. Referring to the continuing bor-

der conflict with Cambodia, the broadcast said information has been spread among the Chinese people of Vietnam that "China supports Cambodia against Vietnam and that war will break out be-tween China and Vietnam and that Chinese people will suffer losses and must therefore find ways to leave Vietnam quickly."

The Vietnamese accused the Cambodian authorities of launching a "puppet" campaign against Vietnam and said in a veiled threat that "in the past two patriotic wars of resistance the Vietnamese people made a clear difference between the colonialist and imperialist aggres-sors, our enemy, and the French and U.S. people, our friends."

There is no reason why Vietnam should provoke a border conflict with Cambodia, nor is there any reason for Vietnam to create complexities in its relations with

Training in Russia Reported

HONG KONG, May 28 (AP) -Many Vietnamese youths have been sent to the Soviet Union for military training, a Hong Kong newspaper reported yesterday.

The Chinese-language Ming Pao attributed its information to Vietnamese refugees who arrived bere recently. Ming Pao quoted the refu-gees as saying the youths are expected to return to Vietnam in August to help the navy guard the country's coastline.

The purpose, the paper said, is to prevent Vieinamese from fleeing he country. It said that the former U.S. base at Camranh Bay is now flooded with Russians. It described the bay as one of the most important navy bases in Asia.

The refugees also reportedly told the paper Chinese living in North Vietnam are luckier than those livng in the south. Chinese in the north can return

to China, the paper quoted one refugee as saying. The paper said at least 80 percent of Chinese living in Hanoi have returned to China. It said the Vietnamese authorities let them return to China in order to confiscate their property.

years in office. "We have the idea to be subordinate to political power have the intention of making so-cialism here when the rest of Eu-rope is not socialist."

IMF Loan

So. the soldiers have decided to stay in their barracks?

"Yes, I hope so."

What the Premier calls "the so-cialism of the possible" obviously eased the conclusion this month of an important \$750 million loan from the International Monetary Fund to cover Portugal's balance-of-payments deficit. The IMF has insisted on an austere budget and deflationary measures that will hring real wages well below 1974 levels.

"Life is going to be a little more difficult than it already has been." Mr. Soares said. "But we are persuaded that things are not going to be as explosive as some had

But economics is not Mr. Soares' strong suit, and so the things he worries about, at least in conversation, are more political. For exam-

Senator Assails 'Needless' Panel

WASHINGTON, May 28 (UPI)

— Sen. Alan Cranston, D-Calif, criticizing the self-perpetuating practices of the federal Renegoriation Board, suggested yesterday that biologists might learn a lot about cloning by studying the

Sen. Cranston said that the board now is costing taxpayers more than it saves and is "a needless form of government interference with business."

The agency, set up to review de-fense contracts during World War II and revived during the Korean War, was to have gone out of husiness by 1976. "But it is now seeking funds to nearly quadruple the size of its staff, the senator said. On the other hand, why should we be surprised? If a frog can be cloned. it stands to reason so can a bureaucracy."

British Official Says Porn Trade **Becoming Big**

LONDON, May 28 (AP) - Duphne Skillern, chief of Scotland Yard's war on pornography, said today that the printing of pornography in Britain is increasing so fast that the country is now a major exporter of "dirty mags." Commander Skillern.

Yard's A-3 brunch, which has responsibility for obscene publica-

ain from other European countries, she said, adding: "There could be a natural progression in the British product as the porn merchants try to stay in business." She said she believes the "the worst danger in pornography is the introduction of the element of violence.

There has always been pornography and I suppose there always will be," she said. "There is no way it can ever be eliminated, but we can try to control it at a level where it corrupts the least.
"If what we now regard as pornographic becomes the normal,

some people will look for some-thing harder and it then becomes an extremely nasty business."

Order Allows Blind To Keep Canes in Air

BALTIMORE, May 28 (AP)—Blind persons can keep their white canes on U.S. aircraft—at least for

U.S. District Judge Edward Northrop issued a temporary re-straining order Friday forbidding U.S. airlines from taking away the canes until at least June 5. A hearing was set for June 2 for the Federal Aviation Administration to argue against the order being made permanent.

The National Federation for the Blind and its possident are chal-

British magazines, she told a press conference, mostly depict "straight" pornography, and the "really nasty stuff" comes to British To CIA Memo Of Minh Offer

WASHINGTON, May 28 (AP)

— The U.S. Justice Department and the CIA have refused comment on a report that a government lawyer disclosed, evidently by acci-dent, a CIA memo that appears to contradict the agency's denials that money was once offered to a politician to remain in a South Vietnam presidential race. The St. Louis Post-Dispatch Fri-

day said that the memo apparently was read inadvertently into a hearing record in the government's civil suit against Frank Snepp. Mr. Snepp. who bad been a CIA analyst in Vietnam, details the 1975 fall of Saigon in his book published last year. "Decent Interval." The CIA contends that Mr. Snepp violated his sworn secrecy oath by publishing the book. The agency is seeking a court ruling that might discourage similar actions by other former employees. day said that the memo apparently

former employees.

Mr. Snepp said in the book that, in 1971, then-U.S. Ambassador Ellsworth Bunker offered \$3 million to Gen. Duong Van Minh to run for election so that war critics could not claim that President Nguyen Van Thieu had won reelection without a fight. The general entered the election, but an aide on Sept. 3, 1971, said that the offer of an undisclosed amount of money from Mr. Bunker to finance Gen. Minh's campaign made him "furious," and he decided to drop out from the race the next day.

The allegation had been denied by the CIA and by an aide to Mr. Bunker, now an ambassador-atlarge in Washington, the newspaper said.

The Zahrani, almost 28 kilome-

ters north of the Litani, forms the southern line of the Syrian forces that serve as the vanguard of the 30,000-man Arab League army. The area between the two nivers long has been controlled by guerrillas. The committee agreed that

guerrillas will no longer appear armed in public or shoot during funerals, mass rallies or demonstrations, especially in the main towns of Sidon, Zahrani and Nabatiyet. the spokesman said. These are the towns almost totally controlled by PLO guerrillas. There was no mention of the port

city of Tyre, the only enclave south of the Litani where guerrillas re-tained positions after the Israeli invasion in March.

Radicals of the Popular Front for the Liberation of Palestine and their extremist Lebanese allies have vowed to defy Mr. Arafat's morato-rium order, although they are heav-

Observers believe Mr. Arafat was negotiating with radicals to soften their stand and avoid an armed crackdown.

Arafat Says Carter Reneges CHICAGO, May 28 (UPI) -Mr. Arafat has accused President Carter of succumbing to Israeli influence and retreating from his ear-lier support of Palestinian rights, according to an article in today's

porters who are touring several Mideastern countries.

"Do you still treat us as you treated red Indians? Where are the human rights that Carter has talked about so much? As Palestinians, what did we do to the American

sign a nuclear pact.

Mr. Powell reiterated that "we are willing to sit down at any point," while "the Soviet Union has

maintained that they are not willing to sit down until some sort of
an age-ment is reached."

Mr. Powell told reporters "the discussions were full and very frank" — a diplomatic cuphemism to signify hunt, or tough talks; he repeatedly employed the expressions "frank" or "very frank,"

Chinese Briefed By Brzezinski On U.S. Policy

WASHINGTON, May 28 (AP)
— President Carter's national se-curity adviser and his aides briefed Chinese officials last week on U.S.-Soviet arms talks and on the U.S. strategic overview, an administra-tion official said last night.

The meetings also involved discussion of a secret White House document. President Review Memorandum 10, a study of the strategic world situation, govern-

ment officials said.

An official said that security adviser Zhigniew Brzezinski discussed the status of the strategic arms limitation talks with Chinese oreign Minister Huang Hua for 312 hours during second day of the visit to China.

However, the official added: "To say that we went there and cave a hriefing on SALT would be missing the boat . . . We discussed our strategic averview, which includes all the major outstanding issues -Africa, the Middle East, comprehensive arms control. He said they also discussed "where there were parallelisms."

The next day, Mr. Huang gave Mr. Brzezinski a 2½-hour assess-ment of the Chinese view of the world situation and Mr. Brzezinski responded for about an hour, the official said.

Hazards of Tris Are Found Even In Old Pajamas

WASHINGTON, May 28 (WP)

— The cancer-causing flame retardant. Tris, can be absorbed through the skin by thousands of children still wearing old, treated pajamas, even though use of Tris is now banned, scientists have reported.

The finding contradicts a determination last year by the Consumer Product Safety Commission that found that repeated washings re-

found that repeated washings re-moved so much Tris that treated sleepwear could generally he worn

safely.
On the basis of the new studies, one of the main investigators. Dr. Evan Horning of Baylor College of Medicine in Houston, said, "I simply would not keep old pajamas that might have been treated. As a parent, I'd throw them away."
The federal commission forbade new use of Tris on children's sleepwear in April of last year, but also voted against making manufacturers spend millions of dollars to repurchase laundered sleepwear from consumers. It relied on tests from consumers. It relied on tests indicating that, after three wash-ings. 95 percent of Tris was removed from two polyester fabric samples. However, the Environ-mental Defense Fund said other tests showed that 10 percent of the Tris was left on the fabrie surface after 10 washings.

Ball

han Senate Unit Asks Carter **To Back Cuban Charges**

By Bernard Gwertzman

forces based in Angola.

In a closed bearing with Secre-tary of State Cyrus Vance on Friday, the committee agreed to a request by Sen. George McGovern. D-S.D., for a full airing of the pres-

ident's charges. When asked about Mr. Carter's statement that Cuba trained and Katangans and knew about but did nothing to prevent the invasion. Mr. Vance reportedly said that the committee should address their inquiries to the Central Intelligence Agency — the source

As a result, the committee decided to hear testimony from Adm. Stansfield Turner, CIA director, af-ter this weekend's Memorial Oay

National security adviser Zbig-niew Brzezinski today offered to give the Senate proof that Cubans were "responsible" for the rebel invasion. In an interview on NBC's Meet the Press," he also said he discussed the problem of Soviet-Cuban intervection in Africa with Chinese leaders on his trip this month to Peking.

Mr. Brzezinski said that the administration bas "information . . from a variety of sources" to back President Carter's accusation. The invasion by Angolan-based rebels "could not have taken place without the invading parties having been armed and trained by the Cubans and indeed perhaps also the East Germans," Mr. Brzezinski

U.S. Accusations

7.ezinsi For the last week, the Carter ad-ministration has been accusing Cuba of playing a substantial role in the invasion, even though President Fidel Castro and other Cuban officials bave firmly denied any involvement, directly or indirectly. Sen. McGovern said that he was told categorically by Cuban Vice President Carlos Rafael Rodriguez in New York at the United Nations special session on disarmament on Thursday that there was no Cuban to promote security and developinvolvement, as he had also earlier ment in that continent. been told by Cuba's senior diplo-mat in Washington, Ramon San-

Thursday that Cuba had played a behind the scenes role in the recent Limitation Talks be suspended beinvasion of Zaire by Kalangan cause of Cuban and Soviet involvement in Africa.

Other members of the committee were concerned that the president was seeking more freedom in foreign affairs and was using the Cuban issue as an excuse to change

The question of Cuban involvement in the Zaire fighting has been hotly disputed in the administration. Some officials contend that it was impossible to prove that the Cubans had done more than to train some Katangans some time ago, in connection with their aid to Angolan forces, and to have given them Soviet arms.

Carter Charge

But the administration, in part to justify the U.S. participation in the French and Belgian airlift to Zaire. has chosen to suggest a direct Cu-ban role. Mr. Carter, in a press con-ference in Chicago, said that the Angolan government must bear heavy responsibility for the attack which was laooched from its territory "and it's a burden and a re-

sponsibility shared by Cuba." We believe that Cuba had known of the Katangan plan to invade and obviously did oothing to resurain them from crossing the border," be said. "We also know that the Cubans have played a key role in training and equipping the Katangans who attacked."

Sen. McGovern, when asked about Mr. Carter's comments, said: 'I don't want to say I am skeptical of what the president is saying. I recognize a contradiction when I

Files Hint Black Leader Helped FBI Oppose King

WASHINGTON, May 28 (UPI)

— An unidentified black leader apparently worked with the FBI in the 1960s in an effort to remove Dr. Martin Lnther King Jr. from national prominence in the civil rights movement, according to just-re-

The secret office files, which be-longed to former FBI Director J. Edgar Hoover, were obtained un-der a Freedom of Information Act request made by the Center for National Security Studies, a private Organization.

They "reveal the extent to which

King and his close associates were perceived as a threat by the FBI and kept under government surveil-lance during the five-year period before King's assassination in 1968, the center said.

It said, for instance, that a Dec. 1, 1964, interoffice memo to William Sullivan, then No. 3 in the FBI heirarchy, indicated that "the FBI and a black leader apparently worked together in an effort to climinate King."

The name of the collaborator as blanked out in the released

"[Blank] stated to DeLoach [another top FBI official] that he was faced with the difficult problem of taking steps to remove King from the national picture," a copy of the memo showed. "He indicates in his comments a lack of confidence that he, alone, could be successful. It is therefore suggested that consideration be given to the following course of action:

That DeLoach have a further discussion with [Blank] and offer to be helpful in connection with the problem of removal of King from the national scene." The memo then suggested that

the collaborator get together with black leaders such as James Farmer and labor leader Philip Randolph, and "on a highly confidential basis could brief such a group on the se-curity background of King." The briefing would include "the use of a tape, such as contemplated in your memorandum, with a transcript for convenience in following the tape,

[and] should be most convincing.
"This might have the effect of increasing the stature of [Blank] who is o capable person and is ambitious," it said. In Illinois Legislature

Zaire War Dims Economic Progress Hope

By Michael T. Kaulman

KINSHASA. Zaire. May 28 (NYT) — It is difficult to imagine how great a role Kolwezi, the heart of Zaire's mining industry, has played in the nation's economy and how dependent that economy has been on the 500 or 600 white metal-

Copper provides at least 60 percent of Zare's foreign earnings. and the mines at Kolwezi last year accounted for about 60 percent of Zare's foreign earnings. accounted for about 60 per cent of the 440,000 tons of copper sold by

Zaire also produces half of the world's cobalt — about 11,000 tons a year — which is needed for making arms and for nuclear projects. Ninety per cent of this came from Kolwezi. The mioes around Kolwezi also supplied all of the sizable yields of zine marketed by Zaire. In fact, the only cash-earning exports not affected by the recent rebel attack were those of industrial diamonds and coffee.

'Effectively Bankrupt'

In a country where the per-capita income is estimated at \$130 a year, where food production has dropped so sharply that large quantities of corn have had to be imported from South Africa and Rhodesia and where inflation is said to be rising at 75 per cent a year. Kolwezi's mines represented a potential bright spot.

Gas Agreement Made By U.S., Japan, Russia

TOKYO, May 28 (API - Japan, the United States and the Soviet

The agreement was made Friday after a five-day meeting on the project, according to the spokes-man of the federation of the economic organization (Keidanren). He said that the Soviet Union did not submit the estimated develop-ment cost at the meeting and that the three nations failed to reach agreement on financial issues.

Because of eost estimates as high as \$4 hillion, there are moves against the project in the U.S. Congress, informed sources said. The United States has yet to approve the importation of Soviet natural

Suicide in U.S.

LAKEWOOD, Calif., May 28 (AP) — A student, despondent over being rejected from medical school, yesterday killed himself after fatalshooting his younger brother, authorities said.

The father of the two, Edward Ishkanian, then had a heart attack as he directed ambulances that responded to the shootings. He was

listed in critical condition. Paul Ishkanian, 21, described by neighbors as hright but reserved, shot his brother Robert, 10, with a ,38-caliber weapon as the boy lay in bed, police said. Paul explained in a

Southern California, he apparently police said.

Mr. Smith is known to desire Mr. Nkomo's return from Lusaka, on the ground that he commands Ma-tabele support and controls a guer-

rilla army. Earlier, as the crowd chanted nationalist songs, a column of jogging hlacks carried a mock coffin around the stadium. The coffin hore the slogan, "Salisbury Agreement — Rest in Peace."

French Unit Withdraws

(Continued from Page 1) ter, the world's biggest, and there is still no electric power, water, fuel or food available there following the occupation of the town by Angolan-backed rebels and the death of 100 to 150 Europeans and veral hundred Zairians.

The international committee of the Red Cross has sent four train cars with food for the 35,000 to 50,000 Zairians still living in Kolwezi but a Zairian Red Cross official said that food is still the

niggest problem for the town. The distribution of Red Cross supplies is to begin tomorrow but a crowd of was reported yesterday to have attempted to break into one of the cars stationed in the Kolwezi train yard.

Meanwhile the security of Shaba province remains a continuing problem, with small bands of rebels roving the countryside around Kolwezi and the small railroad town of Mutshatsha 60 miles to the west still apparently in their hands.

There have been no new reports on the situation in Mutshatsha and it was not clear whether the rebels were occupying it today or had moved on after capturing it from the Zairian Army nearly two weeks

gress on overdue payments. And Zairian Embassies occasionally have been without telex or phone service because bills have not been

Just before Kolwezi was attacked pects had improved slightly. The world price of copper began to inch up from a long slump, with fore-casts of a significant rise. And a group of international banks bad put together plans for a \$220 mil-lion loan.

The government announced that President Mohutu Sese Seko would soon release his plan for the eco-nomic restructuring of Zaire and call for stringent controls and the limitation of luxury imports and unproductive capital projects. Then came the attack, and in its

aftermath, the evacuation of the white population.

The mines were not significantly damaged and soon can be restart-ed, according to executives of the Gecamines company. Many of the 13,000 black miners and laborers have returned to the area. But the skilled manpower occded to direct the operation is missing. There are about 100 black Zairian managers, but their more oumerous white

counterparts are gone.

The mines are now fully owned by the Zairian government, although service and sales for the state-owned Gecamines concern is handled under contract by the Societe Geoerale Belgique, the holding company for the old Unioo Miniere that developed the area un-der colonial rule. Most of the experts have been Belgian.

There are other potential sources of metallurgists and engineers. Outside Shaba Province lies Zambia's copper belt, where more than 4,000 whites, many of them South Afri-

cans, direct operations.

It would be politically difficult for the government to turn to South African for belp, but in the present economie bind, Zaire has little room to bargain. In the past, it has even called on South African residents to organize mercenary units.

Another impact of the attack was evident in the decision announced Friday by a Zairian subsidiary of the U.S. concern Morrison Knudsen to close two construction camps to addition to the one at Kolwezi. The company had been building the world's longest powertransmisson line from dams on the Congo River to Shaba Province. The job is said to be 80 percent

Better Late Than Never

MANILA, May 28 (AP) — The Supreme Court dismissed a copyright infringement complaint yes-terday because it said the com-plaining publishing company wait-ed one day too late to file the charge. It took the judicial system since Sept. 3, 1965, years to arrive at that decision.

Legionnaire searches for rebels in a house outside of Kolwezi.

Legion Keeps Up Image In Zaire as Crack Force (Continued from Page 1)

and mutivation are supposed to offset it. "A big bruiser may maul a man in hand-to-hand combat, but in a firefight we need little guys who gain confidence in themselves hy obeying orders and relying on their buddles instead of showing off or arguing about orders," said a Yugoslav veteran with 13 years' ex-

perience in the legion.

Officers and men agreed that the key to the legion's ability to cope with tough assignments is the iron discipline and unquestioning obedi-ence — stronger than in ordinary French Army units — which are the legion's forte. The discipline stems from the legion's need to weld together men of 30 different nationalities, often troublemakers and social misfits, to forge a fight-ing unit sometimes described as a "legion of the damned."

Bachelor Rule

The legion's can-do spirit was at-tributed by Col. Forcin to the rule that the legionnaires must be bachelors, but reticence in conversations hinted at the existence of secret families. Legionnaires said simply that any tight-knit unit had high combat morale.

The legionnaires enlist for unbreakable sive-year hitches. All recruits join under an assumed name. traditionally with few questions asked. In fact, serious offenders are almost always weeded out during a week's preliminary screening at legion headquarters in Aubagne, near Marseilles. A man can still disappear in the

Publisher, **Foes Debate** Nixon Book

By Herbert Mitgang ATLANTA, May 28 (NYT) -The controversy over the right to publish and sell "RN: The Memoirs of Richard Nixon" — as well as the right to tell potential readers not to huy the book — produced a confrontation yesterday at the an-nual meeting of the American Booksellers Association.

At a news conference, the president of the firm that published Mr. Nixon's book exchanged strong words with leaders of the small but vocal Committee to Boycott Nixon's Memoirs about the ethical

issues of helping to enrich the for-mer president who resigned, Harold Roth, president of Gros-set & Dunlap, referring to the campaign against the book, angrily said: "Anyone in this country bas a right to make a damn fool of himself." He also accused some newspapers of seizing every oppor-tunity to discredit Mr. Nixon, saying: "I respect the right of the press to make errors as well as to redress its errors.

Publisher Explains

The conference was called by Grosset & Dunlap to explain its position on the book. William Bolevn and Tom Flanigan, leaders of the boycoit group, appeared in T-shirts that read; "Don't Buy Books By Crooks,"

"There are people who feel that the publication of a book by Richard Nixon, a man who lives under the shadow of suspicion, is a totally inappropriate act. Mr. Roth said. "I find it difficult to understand such sentiments, It is incredible that anyone could suggest that a book not be published. If we ahridge the freedom of any one writer or publisher, we effectively ahridge the freedom of all."

and should not be censored because of one's political persuasion." Mr. Boleyn said that the cam-

paign against the book is being deliberately distorted into a censor-

We have never said to people that they should not read books by crooks. Mr. Boleyn said. 'Our point is that people should not buy the books and help enrich Mr. Nixon. We have never said that the book should be suppressed. People who want to read it can get it out of the library, which they are entitled to do, or they can wait till this \$20 book goes into the remainder bins a half-year from now for \$2.

The Committee to Boycott Nixon's Memoirs had rented a table for \$75 at the World Congress Center, where the annual convention is being held, and was selling bumper stickers, posters and T-shirts. The funds from the campaign have gone into advertise-ments against the book, which have appeared in the Boston Globe and Washington Star, and have been accepted for publication in the Los accepted for publication in the Los Angeles Times and Chicago Tri-bune. The Washington Post and The New York Times have turned down the ads on the ground of "taste" because of the slogan, "Don't Buy Books By Crooks."

Advertisements Defended

Asked at the news conference about the issue of the suppression of an advertisement against the Nixon book. Mr. Roth, who bud made a strong statement about his own right to publish and censor ship, said: "Personally, I would have accepted the ad and run it."

Mr. Roth said that the original printing of 225,000 copies bad been increased to 300,000 copies; that the break-even point was about 50,000 copies, excluding Grosset & Dunlep's overhead, and that from 150,000 to 175,000 orders had already been received for the book He was uncertain if there had been

any reorders on the book.

It is still too carly to tell bow well the memoirs are moving in the bookstores. Robert Markel, vice president and editor-in-chief of Grosset & Dunlap, said that the book was not selling as well in the book was not selling as well in the Northeast as it was elsewhere.

ing every available space at the hlackjack and craps tables. Mary Anne Finney said that she drove all night from Pittsburgh to be first in line at a casino entrance. She waited two hours, then raced for a slot machine. On her third pull she hit a \$300 jackpot. "I broke the bank." she said, laughing as she and her mother carted away their 300 silver dollars in paper cof-

on a 15-16-1 bet. "Do Inese dick know who they're shooting with?" Mendito, of Hackensack, N.J., shouted as he cradled the dice. He invoked his first wife's name and rolled, but his hot string ended. "Oooh, that \$900 would have been nice. I would have had some ammo.

String Ends

nice. I would have had some ammo. You got to have ammo."

Mr. Menditto said that he would go home after one day if he was losing and stay if he was winning. "I'm supposed to be at work tomorrow." he said with n shrug. "but if I'm winning I'll phone in."

Resorts International chairman James Crosby said that his company spent \$50 million on the casino hotel and was losing \$14,000 to \$20,000 a day running the hotel without the casino. He refused to say how much be expects the casino

say how much be expects the casino to make "because we don't want anyone holding us up."

Despite the capacity crowd, there were no traffic problems during the early hours of the first casino gambling in a U.S. state other than Nevada, However, the Memorial Day weekend, which drew about 150,000 here each wart before cash 250,000 here each year before gambling, had just gotten started.

Few High Rollers

Mr. Crosby said that he expected some high rollers to be on band on the first day of gambling but that there were few in evidence. "High rollers," Mr. Crosby said, "don't like their names in the newspapers." In the opening hours they would have encountered a swarm of television cameras.

The only empty casino seats were at the baccarat tables, where the minimum bet is \$20. Craps or blackjack has a \$2 minimum, although almost all of the tables have a \$5 minimum.

The politicians who turned out for a \$20-a-head dinner and floor show on the eve of the casino opening often spoke in terms that made it hard to remember that they were

describing gambling.
State Sen. Steven Perskie of Atlantic City, who crisscrossed New lersey organizing support for the referendum that legalized casino gambling here 18 months ago, said: We will build in this city a monument of which we will all be proud for years to come."

An editorial in Atlantic City's He added that the memoirs morning newspaper, The Press, "should be read as an important compared hearing recent talk of document of 20th-century history monorails and other devices to develop this resort to the thrill of watching the first moon walk on television. The editorial declared: "The future is now."

Gov. Byrne said that everyone was sharing a part of New Jersey's history. "We're engaging in something new. We're taking leadership." he said. "The eyes of the world are on us. It's up to us to equip ourselves well." equip ourselves well."

Deauville Casino Holdup say how much be expects the casino **Sets Off French Manhunt**

BERNAY, France, May 28 (AP) - The police mounted a manhunt today for France's public enemy No. 1. Jacques Mesrine, who is be-lieved to have held up the casino at Deauville Friday night after boldly visiting the local police station.

Mesrine made a spectacular escape from the Sante prison in Paris on May 8 with another long-term criminal. Francois Besse. A third prisoner was shot dead by police.

Armed police and gendarmes. reinforced by the anti-gang bri-gade, surrounded woods near the western town of Bernay after two men were seen walking along an unused railroad line, A helicopter search started, and the police posted men in all other houses in the area to prevent the wanted men taking hostages. Officials said Mesrine, waving a

Ministry of Justice identity card stolen during his escape, walked into Deauville police station Friday evening, saying he was a police commissioner and asking for the duty inspector.

70,000 Francs Taken Told that the inspector was out. Mesrine said he would call hack yesterday, and left. The two men then went to the nearby casino. where Mesrine used the card to meet the director, then forced him hand over 70,000 francs (\$14,000), saying as he left: "I'm

Mesrine organized the escape. Durng a meeting with a lawyer, he grabbed guns concealed behind a wall panel forced his way out of the building after freeing Besse and the other man, then scaled the out-

Bombings in Rome, Other Cities

Terrorist Note Praises Moro Slaying

NAPLES, May 28 (AP) — A leaflet, allegedly from the Red Brigades and found last night in a trush can here, called Aldo Moro's slaying a revolutionary victory and the state of a defeat for imperialist forces.

The two-page leaflet carrying the five-point star of the terrorist or-ganization was found after an anonymous telephone caller told the local newspaper Roma where it

The leaflet said that a branch of the Red Brigades, named after Margherita Cagol, had been established in Naples

Margherita Cagol was the wife of Red Brigades founder Renato Cur-cio who is in jail. She was killed in a shootout with police in 1975. The leaflet also said that two of

the magistrates conducting the trial against Mr. Curcio and 14 Red Bri-gades members in Turin will face the same fate that your friend [Francesco] Coco." Mr. Coco,

- U.S. adults are smoking less, but the habit shows no sign of declining among youngsters, particularly girls, according to William Foege, director of the Center for Disease

There have been "significant decreases" in cigarette smoking among adults, but among youth the picture is different, he said last

"Smoking among boys has hardly changed in the last decade." Mr. Foege told a Senate Human Resources subcommittee studying legislation that would develop programs to cut down smoking. The most recent figures show that 5 percent of boys between 12

Coal Ship Hits Alabama Dock

MOBILE, Ala., May 28 (AP) -A British coal carrier rammed an oil company loading dock on the Mobile River, sending about 100,000 gallons of jet fuel, oils and gases spurting from dock pipes and creating a major spill, the U.S. Coast Guard said yesterday.

Robert Trescort, a Coast Guard

spokesman, said that the shipping industry was closed for five miles along the river because of the dan-ger of an explosion from the highly volatile (uel and gases. He said that the ship lost control

Friday, apparently because of a mechanical problem, and severed several oil transfer lines on the docks. There were no reports of

In Nuoro, Sardinia, shots were fired at a leftist radio station and a union official was wounded. An anonymous caller claimed responsibility for the Sardinia attacks for the Red Brigades. Elsewhere, leftist clandestine

groups claimed responsibility for most of the attacks. In Rome, a bomb damaged an office of the Christian Democratic Party, and the car of a Christian Democratic official and that of r policeman were set afire. Bombs damaged an office of the neo-Fas

Smoking Drops For U.S. Adults

WASHINGTON, May 28 (UPI) and 14 smoke; just under 20 percent of boys 15 and 16 smoke and somewhat more than 30 percent of boys 17 and 18 smoke.

Meanwhile, smoking among girls has increased dramatically. In the 1960s, about twice as many boys as girls smoked. Now, at every age level, girls are smoking at the same rate as boys," Mr. Foege said.

2 Charged With Scaring Man to Death

NEW YORK, May 28 (AP) -Two women with lengthy arrest records have been charged with murdering an 85-year-old man by scaring him to death during a robbery.

"This is the only case we know of where persons are accused of scaring someone to death," said Robert Johnson, assistant district attorney.

Mr. Johnson said the victim, Nazzareno DiCarlo, collapsed of a heart attack after the two women pushed their way into his Bronx apartment. There were no bruises or signs of other physical abuse. He died a few veeks later.

The women, Babinko Benko, 23, and Maria Liska, -50, of Queens, were freed on bonds totaling \$140,000 after being charged with burglary, mbbery, grand larceny and murder.

In Padua, a bomb destroyed the car of an industrial executive. In Piacenza, six firebombs caused mimor damage in the construction yard of a leftist cooperative. And in Leghorn, the car of a Fascist official was set afire.

Untying the President's Hands

The image of a president trying to do good with one hand fied behind his back by Congress elicits sympathy. Jimmy Carter seized on that sympathy shrewdly last week as he noted the bloody events in Zaire and portraved himself as hobbled in his desire to help independent African governments resist Soviet and Cuban pressure.

Mr. Carter spoke mostly of Africa. But he had in mind a whole web of restrictions on presidential freedom to conduct foreign poliey which Congress has passed into law since Richard Nixon sent U.S. troops into Cambodia eight years ago. Some restrictions bar overt or covert military intervention in specified places: one is Angola. Other restrictions prevent the president from granting trade privileges or credits to the Soviet Union until it eases its curbs on emigration. Another limits U.S. arms shipments to Turkey until it pulls its troops back from Cyprus. And still others deny assistance to countries whose governments Congress dislikes because they do not respect human rights; or because they lean too far left in their domestic policies; or even because their commodities compete with U.S. produce.

The president bumped up against these restrictions when he sent U.S. planes to carry "non-lethal" supplies to Zaire. He could not so readily have had them transport ammuni-

tion. The experience clearly encouraged him to try to persuade Congress that the time has come to draw a line. He said he will resist the restrictions Congress wants to add to this year's foreign aid legislation. And he will try to wriggle free of some of the previously enacted limits. If he cannot aid Zambia, Tanzania or Mozambique because some congressmen think their governments lean too far left or are too much disposed to aid guerrillas fighting the white-dominated regimes to their south, they will be forced to rely more heavily on Moscow or Havana for support.

The president says that for now he will not ask Congress to repeal its 1976 prohibition against aiding insurgents in Angola. That is prudent. While so many Cubans are in Angola. the insurgents are unlikely to prevail; and once the Cubans left, the United States would have no reason to aid the insurgents. But Mr. Carter was right to imply that the idea of such restrictions needs to be examined. They give too much comfort to forces and movements hostile to the United States.

Congress needs to be kept informed of U.S. involvements abroad and can never be denied its authority to call a halt. Procedures for informing Congress have been devised during recent years of soul-searching. They can be tested and refined without legislating arbitrary new limits on the executive. .
THE NEW YORK TIMES.

Choice of Justice

Zulfakir Ali Bhutto, Pakistan's former printe minister, is appealing his conviction for having ordered the murder of a political opponent. There are indications that the Pakistani Supreme Court will soon uphold the conviction - and the death sentence that accompanied it. And informed Pakistanis predict that Gen. Mohammad Zia ul-Haq. who heads the so-called "martial law government" that took over from Mr. Bhutto will have the sentence carried out within hours of the verdict.

Dead or alive, the former prime minister presents an awkward problem for the Zia regime. The circumstantial evidence against Mr. Bhutto apparently is strong, but not sufficient to convince his many fervent followers that he has not been framed. If he is executed, they may take their resentment to the streets. But if be is spared, there will always be the danger of his eventual return to power - and revenge. In such circumstances, the generals are said to argue, it would be better to allow Mr. Bhutto to hang, and quickly.

If that is their calculation, they should reconsider. General Zia says he wishes to return Pakistan to normal civilian rule as rapidly as possible. But would not killing Mr. Bhutto be likely to touch off the kind of disturbances - and repressive reactions - that will make this goal unachievable?

Mad World Department

It's-a-mad-mad-mad-world note: The Eritreans, people who live in northern Ethiopia, along the Red Sea, have been fighting for their independence for 16 years and doing pretty well at it, too. For one thing, they had the sympathy, and active support, of Continunist Cuba, which helped

train Eritrean fighters. But not long ago, the Soviet Union and the

Ethiopians became buddies. The Soviets brought in their Cuban clients to fight the Ethiopians' wars for them. First against the Somalis (who used to be Soviet allies), and now against the Eritreans. So the Cubans will be battling the soldiers they trained.

And if you think that sounds mixed up, consider this: the Italian Communist party has announced its support for the Eritreans. -From the St. Paul (Minn)

Pioneer Press Dispatch.

International Opinion

China and Vietnam

For some months past the usual veiled attacks common in the Communist press have shown that China and Vietnam were getting angrier and angrier with each other. Now the argument has come into the open with China's probably justified blast at the treatment by the Vietnamese of the overseas Chinese community ...

In Vietnam's relations with China ... there are many other grounds of mutual suspicion and hostility. And what is more important is that behind the incidents and the quarrels there lies the strategic fear of the Soviet Union, operating now as fiercely as ever in Peking. The presence of Soviet military advisers in Vietnam, concerned with the border war with Cambodia, whose aid comes from China, is an apt pointer for Chinese anxiety over Vietnam's Russian preferences ...

China ... seeks to contain Vietnam in Southeast Asia just as the Russians and Chinese seek to limit each other's influence in the world at large ... Getting at the Chinese community is evidently Hanoi's only easy

way of striking back at China ... Vietnam has suffered from so long a period of warfare drugged by political theory that the awakening to reality has been delayed. The country's urgent economic needs should now dictate where her best interests lie. In the last resort, surely, equable relations with China are ines--Front the Tintes (London).

Fine Pose for Trudeau

Canadian Prime Minister Pierre trudeau strikes a fine pose at the United Nations, announcing that Canada will no longer keep any nuclear weapons. But could there be any greater hypocrisy? Canada shares a common border with the United States and shelters under President Carter's umbrella. Mr. Trudeau knows that it would be unthinkable for the United States to permit a major attack on

ner neighbor. So what had he to lose? Mr. Trudeau may have won himself a few new churs among the minnows at the United Nations. Among the world's statesmen, he

rates lower than zero. -From the Sunday Express (London).

Seventy-Five Years Ago May 29, 1903

NEW YORK-Utilizing city wastes for fuel was first practiced abroad, notably in England, Experiments looking toward the adoption of the custom in this U.S. metropolis are an obvious outgrowth of the spirit which animates the present inunicipal administration. The interests of the contractor are now subordinated to those of the taxpacer. It is inconceivable that Tammany Hall would ever have introduced such a reform.

Fifty Years Ago May 29, 1928

CHICAGO—After being politely told to move on in half a dozen leading U.S. cities in his search for a place to settle down, Alphonse (Scarface Al) Capone, bootlegger and badman, has re-turned to Chicago and entered the drycleaning business. Whether his new venture will end the gang warfare in which he has been a leading factor is problematical as he will run an open shop - which means union labor will be among his

Disarmament: The Absent Host

By James Reston

UNITED NATIONS, N.Y.— Every year the leaders of the nations gather here to deplore the spectacular rise in the worldwide expenditure on military weapons. but every year they increase their military budgets and contribute to the very thing they deplore. For example, though there has been a great deal of talk about re-

ducing military budgets in the last couple of years, the actual cost, worldwide, over this period has in-ereased from \$350 billion a year to almost \$400 billion, And the ship-ments of conventional arms, and even of sophisticated weapons systems, have gone to many hungry nations that can least afford them.

Accordingly, for the next five weeks, the United Nations will be holding a special disarmament coo-ference here. It will not be a negotiating forum on this problem. For the first two weeks, it will be an information forum to publicize the cost and danger of the arms race, and in the following three weeks it will try to define a set of principles and a "Program of Action" 10 reverse, or at least reduce, the cost of military security.

A couple of months ago, President Carter regarded this conference as an opportunity to dramatize the importance of military arms control, and to support the United Nations in its efforts for international reduction in nuclear weapons and the arms traffic from the industrial to the agricultural or developing nations.

But ut the last minute, after the president of France, the chancellor of West Germany, and the prime

minister of Britain, among other leaders, had agreed to address the disarmament conference. Carter pulled out and assigned his role to Vice President Mondale.

So there is a lot of talk here io the delegates' lounge about "the absent host." Why did the president who has talked so much about disarmament and about the United Nations as the hope of a better political and moral order in the world, decide to stay away from a meeting he urged other world leaders to attend?

The official excuse in Washington is that since President Brezhnev of the Soviet Union was not attending why should Carter? The actual reason is more political and praeti-

Fall Guy

By some accident or blunder of planning a meeting of the North Atlantic Treaty Organization was called in Washington this month precisely at the same time as the U.N. disarmament conference. The NATO allies want to be assured that Carter is going to maintain and even to increase Washington's military defense of Western Europe. They are worried by his hesitation to proceed with the de-velopment and deployment of the neutron artillery weapons, which they regard as the best defense against the excessive Soviet tank and manpower buildup in Eastern

This was a dilemma for Carter. He couldn't make a credible speech NATO on increasing U.S. arms make a credible appeal for reduc-

NATO: Hard Questions Are Unlikely to Be Raised about the larger question of \$400 billion a year for arms.

By Joseph Kraft

Carter administration at the NATO summit meeting here this week. But hly right, allied leaders will hold their But they are not all that complalongues rather than embarrass the cent on economic matters. So un-

hard to resist the conclusion that July - will be a hardball affair, the European allies really don't care about their own defense.

The most serious questions have to do with the will ef the Carter administration to stand up to a new burst of Soviet assertiveness. The U.S. is not matching the Russian arms buildup. Nor, though the Carter administration championed human rights with a vengeance, does Washington have any re-sponse to the harsh sentence meted out to the Soviet dissident Yuri Orlov. So the allies ought to be concerned about whether the Carter administration is truly prepared to face up to the huge increase in Soviet power — the development of a capacity to launch a surprise attack

on Western Europe. President Carter for reasons still not clear made a big deal about publicly coming out for the weapon. He then left the issue of deployment up to a request from the European allies — a stand inconsistent with the notion that the weapoo was all that important. Several Ger-man leaders and some lesser fry undertook to promote deployment of the weapon. Then, after they were out on a limh, President Carter unilaterally decided that he would not

laterally decided that he would not deploy.

Finally there is the specific question of Turkey. The Turks have refused to accept the proposal made by President Carter at the NATO summit meeting at Brussels last year for a long-term commitment to an annual 3 percent increase in defense spending. They have insisted that before signing that commitment, the embargo on that commitment the embargo on military assistance to Turkey pushed through the Congress by Greek lobby at the time of the last blowup on Cyprus should be lifted.

Almost all the allies support the Turkick position. The Confer ad-

Turkish position. The Carter administration also sees the wisdom of lifting the embargo. But it has not gone to the mat on the issue

with the Congress.

Privately the most weighty allied leaders have no inhibitions about criticizing Mr. Carter and his policies and their many changes. But a variety of reasons are working to keep them mute in Washington.

Mum, in short, is the word of the NATO summit. The fact is that the Europeans have long since reased to care seriously about defense. They believe that the combination

WASHINGTON—Sharp ques- of NATO ground forces plus the tions should he put to the U.S. nuclear threat is enough to deter the Russians. They are proba-

\$12 Million Fire

[gj to 277

It was no simple little fire she helped to set in that Milan factors in 1974. The damage came to \$12 million. (Her guilt on this count is hardly in doubt, since she was care-less enough to use her own car and leave her fingerprints.) Her raid on that Swiss armory wasn't exactly a little pilfering job either. Leading a small hand of young Zurich ana-chists, she carted off case upon case nf explosives, machine guns, P.38 pistols, hand grenades, antipersonnel mines, and 300 antitank mines, The arsenal she assembled was

enough to arm the terrorist mive-ments of all Western Europe, which is exactly what she did.

The West German pulice want her fur having armed the Siegfred Hang hand in 1975, when it select the Cierman embassy in Stockholm. killing two diplomats, to demand the release of Bander-Meinhof prisoners, INo doubt this is what Paese Sera meant by Petra Krause's long history of defending political prisoners".)

From Stockholm, the trail of her stolen arsenal spreads across the continent. Caches of her weapon have been found in terrorist hideouts from Hanthurg and Frankfurt to Barcelona and half-a-dozen safehouses in Italy. In a shootout with the cops, the Red Brigades' founder Renato Curcio, currently on that in Turin, used her grenades to kill one Carabinieri and hop the arm off another. She herself is known to have brought 42 of those lethal antitank mines into Italy, one of which - still wrapped in a Zunch newspaper — was found by police just in time in the middle of a busy Milan street. The latest of such police finds was a grenade of hers in the Via Gradoli safe-house used by the Red Brigades in Rome during Moro's kidnapping.

Easily Gulled

How could millions of Italians have been so easily gulled into taking up the cause of so implacable and dangerous a terrorist — and this barely 10 months ago, when the Red Brigades were already shooting to kill? If they didn't koow what she had been up to, why didn't ttalian reporters find out and/or tell them? How is it that even after these two nightmare tempting to absorb the mind, energies and dedication of as many disized. Under the present of awakening consciouness and spirit these charlatans, by dexterous iog them to sleep. Once asleep the naive victims of "human poteotial awakened" can be depended upon to expound the thoughts of Chair-mao Ron [Hubbard], or Chairman even after these two nightmare months of the Moro case, not a sin-Mao Ron [Hubbard], or Chairman Werner, or whoever the newly implanted deity may be.

Mr. Shaffer's article has provided us with a very slight preview of the coosequences of those thoughts when turned into action. However, he has only scratched the surface of gle daily paper here has done so? Is it conceivable that Petra Krause might still find a cheering crowd waiting wheo she walks into that

Naples courthouse next month?
Behind these questions lie customs and attitudes without which Moro's murder might never have happened: a pervading reluctance to believe that murderous terrorism could come from anywhere but the fascist right; an instinctive conviction that any cop here or anywhere is bound to be a brute vicumizing any hapless creature in his any napiess creature in mo-clutches; a passive acceptance of slogancering in the place of hard reporting, by people who have too long suffered from too much of one and too little of the other; and an alltoo-human unwillingness to think that anybody who is against the establishment could be all bod.

Bookings Up 14%

Special Low Fares in U.S. Boon to Public, Airlines

again unless I was so fabulously wealthy I didn't care," Maureen people to be flexible."

Solomon, a film historian, said

American began about her recent "supersaver"

 $r_{trise_{i}}$

"Just about everybody I know is doing this — planning in advance," she added.

Her enthusiasm appears to be shared by thousands of Americans. Supersaver fares, in general use throughout the country for two months, allow travelers up to 50 percent discount on standard air fares if they book 30 days ahead.

The spate of discount variations on the supersaver has boosted pas-senger bookings 40 percent on at least one major carrier, filled 14 percent more seats generally, made flight attendants work harder and driven some reservations clerks and travel agents a little crazy.

Discount Limits

According to federal rules, airlines may sell a maximum of 35 percent of the seats on any flight at the supersaver rates. On flights popular before discount fares such as some businessmen's flights from New York to Chicago - they log: may choose not to sell seats at dis-

count rates. -This has caused some grumhlings from would-be travelers who, lured h had had been sent the call well ahead, there is no supersaver space

"People may not get their first choice," said, a spokesman for

William Fin Pope Transfers Taiwan Envoy

VATICAN CITY, May 28 (AP) Pope Paul VI has transferred the Vatican charge d'affaires in Taiwan main mat on the island that the Vatican still regards as representing China.

ir. An announcement said that Msgr. Thomas White, the charge named as nuncio in Rwanda, The Vatican spokesman, the Rev. not know if and when the diplomat ... I me. will be replaced in Taiwan.

Observers regard the decision as the latest goodwill move by the pontiff toward Peking. The Vatican has vainly tried so far to establish a direct contact with Peking, but recent signs of a let-up in anti-religious persecutions in China have raised hopes.

By Grace Lichtenstein

LOS ANGELES, May 28 (NYT) American Airlines, originator of su--"I would never fly the other way persaver fares. "It's even a little tighter this summer. We're asking

American began supersaver about her recent "supersaver" fares, which require a traveler to flight to New York to visit her famyear on round trips between New York and the West Coast. By March, the concept had proved so successful that all the major airlines were offering variations between dozens of cities.

Other Low Fares

There are "night supersavers," "chicken-feed fares," reductions in first-class fares, unlimited-mileageat-one-price fares, super-economy rates that eliminate meals. "free-dom fares" that allow shorter booking times hus force the traveler to stay through at least one Sunday.

Flight attendants last week said that the heavier loads on planes did not bother them, except that they were finding it hard to get seats at their own standby airline discounts.

The people who run the reservations really have to be on their toes," said a TWA flight attendant

en route to Los Angeles. "We just

have to show up. Most airlines have added extra reservation clerks and their inexperience and the more complex ticket-

ing have slowed service.
"It's been a scramble, people are shopping," said a spokesman for Eastern. He added that about half Eastern's seats on planes to southern Florida are sold at the nofrills fare, which the airline does not like. "The only thing that gen-erates is frustration," he said.

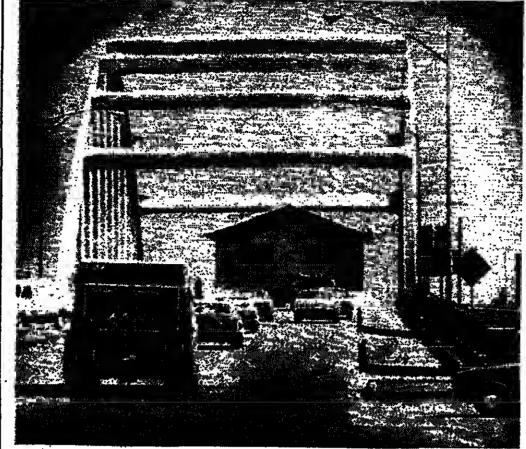

'Administrative Nightmare'

For travel agents, the multitude of fares can be exasperating. The computers of the airlines are overloaded," said Jeanette Pontacq Travel Arts in San Francisco. 'It's an administrative nightmare."

But supersavers have been a boon to the industry as a whole. According to the Air Transport Association, air traffic pationally was up 14 percent for the first four months of this year and is heading toward a record. One of every three persons is traveling on a discount fare, according to the association.

United Airlines, in part benefiting from a strike against Northwest Orient, reports current bookings, including full fares, running 40 percent ahead of last year.

A United spokeswoman said that the airline is confident that the discounts "will meet or exceed our original goals - at least 31 percent those people using the fare will

FINALLY GOING HOME — A house, built by students at a Little Rock, Ark., high school, moves across bridge to final locale in North Little Rock. It only cost \$10,500 to be built, but the paperwork to get clearance to move the house over the bridge took more than two years.

To Aid American Travelers

U.S. Easing Passport, Customs Controls By David Binder WASHINGTON, May 28 (NYT) It is several hours before your Welers at their points of departure Welers at their points of departure Washington, May 28 (NYT) It is several hours before your Washington, May 28 (NYT) It is several hours before your Washington, May 28 (NYT) It is several hours before your Washington, May 28 (NYT) It is several hours before your Washington, May 28 (NYT) It is several hours before your Washington, May 28 (NYT) W

— It is several hours before your flight leaves Zurich for New York and you, a U.S. traveler, discover that your wallet and passport are missing. You want to leave as scheduled anyway.

According to Loren Lawrence deputy assistant secretary of state for passport affairs, an American citizen in such a predicament now has a good chance of ohtaining a temporary passport immediately from the local U.S. consulate, free, perhaps with a color photograph made on the spot also free, Formerly, the consulates were authorized to charge \$13 to replace a lost passport even in an emergency.

Such changes to facilitate travel to and from the United States were discussed here recently at the Con-ference on the American International Traveler, sponsored by the State Department's Bureau of Consular Affairs.

A second change that is being ex- customs inspection by using a sin-

velers at their points of departure so that the time to complete entry requirements on arrival is reduced. This is already being done at four Canadian airports, in Bermuda and

Extension Sought

David Crosland, general counsel for the immigration service, said that the Carter administration hoped to extend the practice soon travelers from Mexico City, Frankfurt and Tokyo. He added that in the last two years more than 4.5 million travelers, representing more than a third of the air passengers entering the United States, were cleared in advance. He said that legislative approval would be required to extend the procedure

The immigration service has also begun testing a system that would he said. An experiment is also un-der way at Washington's Dulles In-Rambert's Ballet Cluh and the Carternational Airport in which U.S. citizens bypass the immigration inspector and go directly to customs

identification cards, under a system called Alien Documentation, Identification and Telecommunication, to enable resident aliens to travel more easily. Mr. Crosland said. Similarly, the State Department is developing a computer-based sys-tem for issuing nonimmigrant visas to visitors.

Last year the State Department issued 3.1 million passports, and the volume is running 7 percent higher this year.

Barhara Watson, hostess of the conference in her capacity as head of the consular hureau, said additional passport offices were being opened this year in Detroit. Hous-ton and Stamford.

By Robert C. Toth

WASHINGTON — Soviet milidramatically in this decade, from strategic missiles and warships to tanks, artillery and even manpow-er, which has been increased by 30

percent. The relentless trend raises fears that the Soviet Union seeks to be militarily superior to the United

States, not just equal.

How and why has this buildup taken place? Will it continue? Will it be used to support more Soviet adventures in Africa to carry out political blackmail in Europe? Will it tempt Moscow into greater risk-taking to test Washington's resolve?

Seeking answers to such questions solely by studying military ca-pabilities can be dangerous. As Lt. Gen. William Smith, assistant to the chairman of the Joint Chiefs of Staff, put it, "By using measures by which we assess military effective-ness today, the British and French should have stopped the Germans

And intentions are much harder to assess than capabilities. Soviet political intentions are especially difficult. Sir Winston Churchill said in 1939, "I cannot forecast to you the actions of Russia. It is a riddle wrapped in a mystery inside an enigma."

Still a Mystery

Much the same can be said today. In fact, the White House earlier this year sent a memo to the CIA listing State and Defense De-partment complaints about the inadequacy of CIA forecasts of Soviet

aims.

The situation nonetheless demands careful attention, as Defense Secretary Harold Brown recently emphasized. "Exactly why the Soviets are pushing so hard to improve their strategic nuclear capabilities is uncertain. What is certain is that we cannot ignore their efforts, or assume they are motivated by considerations of altruism or of pure deterrence.

Despite the uncertainties, interviews with government and private arms experts permit two coolusions that are widely supported:

• The Soviet buildup — "steady, deliberate, impressive," as the Joint Chiefs of Staff described it — will be harder for Moscow to maintain in the next 15 years. The Soviet economy, mobilized for decades to build up the military, is slowing perceptibly. Difficult political, economic and military choices will have to be made, and the decisions will not be made easier by probable changes of leadership.

 Whatever the future, existing Soviet military strength causes real concern and probably requires response. The Soviet Union is close to neutralizing the U.S. land-based Minuteman missile force and bave reduced the effectiveness of the U.S. fleet of B-52 bombers, As a result, military specialists say, a less vulnerable intercontinental ballistic arms as the United States (up to 40 missile will have to be deployed. along with the air-launched Cruise missile, regardless of whether there is a new strategic arms limitation

Sovier intentions are not formed in a vacuum, the analysts emphasize. They will be influenced by U.S. actions, by accidents [such as death and in-fighting among leaders), and by the slowing of the Soviin the Nixon and Ford administra-

et economy. Some of these influ-ences, according to specialists at-tending a continuing seminar on Soviet policy at the Kennan Insu-tute here, will out make the Russigns any more conservative.

Dr. Gregory Grossman, profes-sor of economics at the University of Catifornia, Berkeley, said that there is a "real danger that resource lespecially energy) shortages and domestic political tensions will at some future point tempt the Soviet leadership to use its military might in an externally more assertive

The military buildup could also take on a life and momentum of its own. "The military and its vast armory seem to be in search of a purpose," said Roman Kolkowicz of the Center for Arms Control and International Security, at the University of California, Los Angeles, "a goal that would go beyond the static halances and inernas of

Rise of Arms

The improved quality and in-creased quantity of Soviet arms is not the consequence of an abrupt or recent policy shift. Soviet military spending has risen steadily, about 4 percent a year in this decade, roughly the same growth rate as the Soviet gross national prod-

Thus any Soviet military advantage, whether achieved or impend-ing, would be the result of giving the defense establishment year afthe detense establishment year atter year a fixed part of the GNP, about 11 percent to 14 percent. This compares with about 6 percent of the U.S. GNP that goes for defense, although the U.S. GNP is twice that of the Soviet Union.

The Soviet Union is believed to spend at least as much money for military purposes as the United States and probably 20 percent to 40 percent more. Moscow keeps about one-fifth of its arms facing East, against China, and U.S. allies contribute more to the overall Western defense effort than the East European nations contribute to Warsaw Pact costs.

The bottom live is the balance of forces. According to Gen. George Brown, the outgoing chairman of the Joint Chiefs of Staff, the Soviet

Troops of the Red Army's elite Tamanskaya Division engage in a battle simulation on a burning obstacle course.

Morale High in Tamanskaya Division

Life Spartan in Red Army's Showcase Unit

By Serh Mydans

A LABINO. U.S.S.R. (AP) — Here at the home of the Red Army's elite Tamanskaya Division, barring the route from Europe to Moscow, the visitors' book is filled with the comments of delegations from Communist-bloc countries.

The Tamanskaya, highly decorated for service on several fronts during World War II and now designated as Moscow's "guard" division, is also the Soviet Union's military showcase — for visitors from friend-

But Westerners are shown very little of the Soviet armed forces. apart from an annual Red Square parade. On a rare visit here recently by Western newsmen, the division's commanding officers often bad trouble overcoming their habitual impulse to secrecy. Asked how many men serve in the Tamanskaya, a mechanized in-

fantry division, the commanding officer, Gen. Gennady Lobachev would only say. "enough to fulfill our task."

Asked what that task is, he replied, "Only the officers know that."

Questions Permitted

However, the visiting reporters were shown the men's mess and recreation facilities, their barracks and a brief military exercise, after

which they were permitted to ask questions of the men.

The picture of this selected division that emerged was one of spartan lifestyle, high morale and efficiency in the political training classes—at which the men are trained, as one them said, in "the friendship of

peoples and the hatred of aggressors."

The Tamanskaya, as presented to visiting reporters, offers its men clean quarters, plain but bearty food, a small library, television and entertainment that on one recent evening included a lecture on the Soviet Union's foreign policy and a program of dances.

But, as noted in articles in the official army newspaper, Red Star, life is not as good everywhere in the 4.4-million-man Red Army as it in the Tamanskaya.

Citing "poor management and insufficient care of people." the newspaper has criticized food supplies, insufficient tents and other necessities on maneuvers. ill-fitting uniforms and in the case of one construction battalion the lack of a television set. A Western military observer recently said of the Soviet armed

forces. "They do everything with less concern for the welfare of the individual soldier" than in the West.

But Gen. Lobachev indicated that he felt the opposite was true. He said his men are not taken on rigorous training exercises, as in the U.S. Marines, and he implied that they rely mostly on sports for physical

To Western eyes, however, even this showcase division seemed to have a sparer lifestyle than is common for Western troops.

70 Beds in Rows

The barracks - newly painted and polished before the reporters visited - were divided into rooms where 60 to 70 beds were lined into

According to a mess-hall display, the men receive only 150 grams (5% ounces) of meat a day. Even this amount must pose a supply problem in a country where meat is in such short supply that some outlying towns rarely see it. The unusual visit to the Tamanskaya Division occurred just three

months after the Soviet war games held in Byelorussia, to which U.S. and British military observers were invited for the first time since World War II. The soldiers at the Tamanskaya, evidently like soldiers around the

Soviet Union, mix military training with four bours of political classes In talking with reporters, one soldier sounded exactly like the next one in insisting, as does the Soviet press, that "we do not threaten

anybody. But if the need arises, we are ready to defend ourselves against aggression." The Tamanskaya's political sessions also include the division's own

history as one of the country's most decorated.

Formed in 1940, the Tamanskaya was baptized at the defense of Smolensk, where, by order of Stalin, it was dubbed an "elite division."

It then fought at Rostov, and was decorated: and in the Caucasus, and was decorated again. After doing battle in the Kuban region, it was awarded the prestigious banner of the Red Guard.

It was named the Tamanskaya after it liberated the Taman Peninsu

la, and it finished the war fighting in Crimea. In 1946, it was stationed at its present position outside Moscow, defending the route from Western Europe.

growth has gone into heavy industry and, as a consequence, the standard of living has risen comparatively slowly. **Economy Slowing**

To keep the economy growing. Moscow has poured manpower as well as capital into industry. Nevertheless, growth began to slow 15 years ago. The slowdown has continued, and, according to C1A estimates, the trend probably will wor-

sen in 10 to 15 years.

The slowdown has taken place because Soviet factories have aged and grown more complex. Part of each new ruble of investment and each new worker has had to go toward replacing machinery and manpower rather than toward raise than toward raise. ing output. This has been obvious to Soviet economists for years. In 1965, the new leaders under Leonid Brezhnez made a brief and aborted effort at economic reform. To in-crease productivity, they sought to give plant managers more power to set the amount and type of output. But this threatened to reduce political control of the Communist Party and was quickly scuttled.

and was quickly scuttled.

The economy has since muddled along with falling GNP growth rates from an average of 5.8 percent a year in the 1950s to 5.1 percent in the 1960s to 3.7 percent in the period 1970-1975. The contribution to the GNP by Johns Contribution to the contribut bution to the GNP.by labor, capital and land have dropped correspond-ingly, and the productivity of these have dropped precipitously.

Oil, Worker Declines

On top of this, other difficulties lie ahead. According to the special-ists, the labor supply is diminishing and oil production probably will

Further, because of a sharp de-cline in birthrates in the 1960s, the number of young people entering the work force will fall significantly within 15 years, from 2.5 million a year in the 1970-1975 period to 1.7 million a year in the 1976-1980 period and to 500.000 a year in the

1981-1990 period,
Complicating this will be that
most of the youth coming of age within 15 years will be non-Slavic people from Central Asia, who have long resisted moving to cities in their own republics and resisted even more moving to the labor-short industrial areas of European Russia. Few of these people know the Russian language or have in-dustrial skills. (Their increasing presence in the military is referred to by Russians as a "yellowing of the Red Army." I Further, any massive migration of minority workers to Russian cities has the potential for racial conflict.

Short of moving people around, the Soviet authorities could increase the work force by shortening the service period for military draftees, by reducing the size of the army or by raising the retirement age for civilians. However, none of these would be popular - with the military or with civilians.

Another approach to boost the ecooomy would be to increase productivity, either by increasing discipline or by stepping up purchases of Western technology.

can attack Europe without NATO being able to count on adequate warning and mobilization time.

The stack Europe without NATO fleets, is capable of moving men and equipment to most places in the world and sustaining them Factory managers bave long The Soviet Union has built this sought greater authority over workarsenal by allocating a large part of ers to reduce lost time, but this

would require repressive enforcement measures.

More technology can help in factories and on farms - in agriculture especially, where one of every four Soviet workers is employed and labor productivity is only one-tenth that of the U.S. level. Imports of machinery and equipment rose from \$510 million in 1965 to \$5 hillion in 1975.

Eur

lach

But this strategy increases Soviet dependence on the West for spare parts and maintenance and requires the Russians to earn increas-ingly more hard Western currency. They have few products that the West wants, except oil, which ac-counts for about half of the Soviet Union's hard-currency earnings of \$10 billion a year.

Energy Crisis?

The CIA believes that an energy crisis is ahead for the Soviet Union. It is a forecast disputed by the U.S. Defense Intelligence Agency and by private oil experts. But the CIA has stuck to its prediction that the rate of increase for Soviet oil production will dow and even stop. duction will slow and even stop.

If true, this would force the Kremlin to curtail overall economic growth — which would mean increased energy consumption — or to reduce oil exports or even become all investors. come an oil importer.

The Soviet Union is now the top

oil-producing nation. In 1976 its production was 10.4 million barrels production was 10.4 million barrels a day, of which 3 million was exported (1 million to bard-currency countries). Thus consumption was about 7.4 million barrels a day, In comparison, the United States consumed 18 million barrels a day, of which it produced about half and inconstant the materials. intported the rest.

The consensus is that Moscow faces an energy problem of uncertain dimensions, partly because of industry's profligate use of oil, short-sighted and wasteful technique of extracting it, and the in-creased cost of exploring fields in

According to the CIA, the result will be that the growth rate will drop front the current 3.7 percent a year to perhaps 2 percent or 25 percent in the 1980s unless the Polthuro takes strong — and probably divisive — steps.

GNP Gap

In any case, the likelihood is that Soviet attempts to close the economic gap with the United States will falter. The Soviet GNP was one-third the size of the U.S. GNP in 1960; now it is half the size. The U.S. figure includes a higher proportion of services that provides its citizens a large edge in the standard

of living.

New leadership might try to testrain defense spending, but neither of two former premiers - Georgi Malenkov and Nikita Khrusbchev was able to do it. Mr. Brezhnev has never tried.

The Soviet military establishment holds a pivotal position. It has a voice in the Politburo and military men make up 12 percent of the party's Central Committee. U.S. negotiators have been told that only the Soviet Defense Ministry can initiate arms control pro-

In any succession quarrel among the leadership, the military has at least veto power. So the military is likely to remain, as Lenin told the state to keep it, "The apple of our

Wealth of Documents Left Behind

U.S. Holds Nazi Files in Berlin

By Wellington Long BERLIN (UPI) — When Adolf Hitler finally realized that he had lost, he took steps to deny him-self and his Nazi Party files to the

Hitler instructed the staff at Nazi Party headquarters on Koenigsplatz in Munich to destroy all

membership and other files. Then he withdrew to his underground bunker in Berlin and killed himself. To make doubly sure that he would not fall into coemy hands, he left orders that aides

burn his body.

His Munich staff was much less efficient a fact many Nazi survivors have regretted.
On April 30, 1945, the day Hitler

died in Berlin, the first U.S. soldier

to reach Muoich, Sgt. Ernie Langendorf, walked into the Koenigsplatz headquarters and found the files only partly burned. There was evidence that other files had been removed from the building. Maj. William Browne, of Port-

land. Ore., then with the U.S. military government, took the suggestion of a German adviser and searched pulping mills io the area. In July, his raiders hit the jackpot at a mill operated by Hans Huber, who said that he had been given 40 tons of Nazi documents to pulp but had not done so because his brother had been forced to flee the country on the grounds that he had a Jewish wife.

No Success

Mr. Huber said that he had been trying without success to convince U.S. officers passing through his community that be was sitting on probably the most important Nazi documents the occupation would discover — the master membership list with more than 10 million name

At ahout the same time, another U.S. Army unit found a train abandoned on a siding in northern Bavaria. It contained the files of the Nazi Supreme Court involving appeals from lower courts in cases

and contested membership.

The Army shipped all these files to its documents center in Berlin which also received about 600,000 SS membership cards, 200,000 SA membership cards and the files of the notorious People's Courts which tried violations of the Nazis'

racial code or treason. Millions of pieces of Nazi organizatioo correspondence and files on those who became German citizens

Egypt-Israel Tie For Defense Is Called Possible

SEATTLE, May 28 (AP) - The threat of a Soviet takeover could trigger a mutual defense pact between Egypt and Israel if the two Middle Eastern countries can strike a peace settlement, U.S. Sen. Henry

Jackson says. Sen. Jackson, Washington Democrat and second-ranking member of the Senate Armed Services Committee, said be did not know of any specific mutual defense negotia-tions thus far but would not be surprised to learn that such talks had been beld.

nations have been meeting in Cairo since Egyptian President Anwar Sadat's trip 10 Jerusalem in November. While peace talks have stalled between political leaders. there have been reports of quiet progress between the generals.

In a recent interview, Sen. Jackson said that behind the potentially extraordinary move of establishing such a defense pact is the "menace of the Soviet Union, whose surrogates are attempting to control the Horn of Africa and threaten the

A mutual defense arrangement is needed so that the Russians will not be able eventually to take over Saudi Arabia, Sen. Jackson said.

given time and often that is the key that opens a case against a Nazi war criminal or murderer. The U.S. State Department, which has operated the center since 1952, restricts access to the files to

friendly Western governments and bona fide scholars. Private feuds find no comfort here. The files are a gold mine of Nazi peculiarities. Heiorich Himmler. head of the SS, turns out to have been a master padder of expense accounts. Not only did he carefully list all of the tips that he or his wife allegedly gave hotel or sleeping-car porters and taxi drivers, he also billed the SS for the special tutoring his daughter required.

Military commands of the two Plane-Bomb Charge Denied by Uganda

NAIROBI, May 28 (AP) -Uganda yesterday denied a Kenyan charge that a bomb placed aboard a light aircraft at Entebbe Airport caused the plane to explode and crash near Nairobi, killing the four

persons aboatd. A spokesman for the Entente Airport authority, quoted by Ugan-da radio, said that the aircraft was given maximum security cover while at the airport. The aircraft exploded and crashed Wednesday killing those aboard, including the former white Kenyan cabinet minister, Bruce McKennie.

Euromarket

Lack of New Funds in Euromart Spurring Selling Despite Losses

By William Ellington

LONDON, May 26 (AP-DJ)— domestic interest rates with the rise The amount of new money moving into the Eurodollar bood market appears to have diminished drastically in recent weeks, mainly because short-term investments have greater attractions, particularly as a safeguard against capital losses in a rising interest-rate environment,

As a result, underwriters were left holding a significant propor-tion of the recent Eurodollar offerings. And liquidation of unsold bonds by underwriters in the aftermarket was carried out last week with some befty losses even after commissions are counted-all of the recent offerings ended the week at discounts of two or more points

tors and bond market professionals alike is whether there is any likli-hood of a credit crunch developing parable domestic-dollar interest hood of a credit crunch developing as in 1969 or 1974. Obviously, U.S. authorities would not deliberately gineer another credit crunch as this would put the U.S. and world economies into a tailspin. Yet, in a \$2-trillion economy, vast amounts of liquidity are absorbed when inflation rises sharply. And many U.S. economists are now predicting

a sharp pickup in inflation. Moreover, experience has shown that an accelerating rate of inflation in the United States is likely to have a much bigger impact on the Euromarkets than on domestic financial markets. This proposition

in the U.S. consumer price index. The first column gives a rough indication of the high and low Eurodollar range for the year based on three-month Eurodollar bid rates at the end of the month as published by Morgan Guaranty Trust. The middle column shows the percentage change for the year in the U.S. consumer price index. The last column shows the comparable evolution of three-month do-

mestic certificates of deposit. Year Eurodollar CPI CD 74 8.5-13.94 12.2 8.30-12.38 75 5.81-7.88 7.0 5.50-7.13 76 5.0-6.5 4.8 4.70-5.90 77 5.13-7.19 6.8 4.85-6.80

Significantly, in the 1973-74 perirates as the table shows. The reason for this, some analysts contend, is that U.S. banks, which are major suppliers of funds to the Eurodollar market tend to cut back on interbank lending when credit tightens. forcing other banks to pay a premium for Eurodollar funds.

According to data compiled by Morgan Guaranty, interbank transactions accounted for about 47.2 percent of the gross size of the Euromarket in 1973 but this dropped to 41.9 percent in 1974 before returning to a more normal 45.2 per-

cent the next year.

U.S. Commodities

NEW YORK, May 28 (AP) - Several grain and livestock contracts bulged to peak levels during a week highlighted by all-time top prices for June cattle futures and the biggest weekly grain exports on record. Fears of reduced crop yields were amplified when mid-week rains

drenched the Corn Belt. Even as the Agriculture Department reported that corn plantings lagged 22 percent behind normal as of late last week. muddy fields were making it difficult for farmers to get crops in the

The weather-induced buying, plus shipments overseas of 100 million hushels of wheat, corn, soybeans and sorghum, pushed 1978 crop corn

futures nearly 15 cents to new contract highs. Wheat prices on the Chicago Board of Trade surged 11 to 15% cents to within a few cents of top prices paid last month. And soybeans, jumping an average of 25 cents to \$7.35 in the July contract, surpassed previous records in all but nearest months.

Meanwhile, live cattle futures established season highs during three sessions. Net gains for the period ranged from 1.3 to 1.8 cents a pound, as consumer demand for beef remained strong despite high costs aggravated by limited marketings at major terminals.

The nearest live cattle contract at the Chicago Mercantile Exchange 72.4.88-6.0 3.2 3.75-5.63 sold for a fraction under 62 cents a pound by the end of the week. Hog 73.6.63-11.5 8.8 6.13-10.63 futures finished steady to 1.1 cent higher, but pork belly (bacon) contracts slumped almost 21/2 cents in nearby deliveries. Ample stocks of the uncured slabs of bacon and relatively poor demand in cash markets contrib-

uted to the downslide. While the gains in agricultural commodities rubbed off on gold and

While the discounts in new issues was steep, prices of seasoned bonds were marked down by about a point or so as dealers tried to light-digit figures in 1973 and 1974 at a time when the magnitude of the invalidation, sketchy reports filtered out of the African nation about damage to copper mines and consequently encouraged talk of sharply reduced out-

The U.S. Economic Scene

Analysts Seek Signs of End to Expansion

By Thomas E. Mullanev

NEW YORK, May 28 (NYT) -With the U.S. economy about to enter the 39th month of its current advance — and thus virtually assured of matching, a month hence, the longest previous peacetime ex-pansion since World War II — analysts are beginning to look for signs that the upturn is showing its age and heading for a demise. There is some evidence that such a point is approaching, although not nearly enough to warrant the writing of this boom's obituary - not just

yet, anyway. Some observers disagree. They think the end of the cyclical expansion may be no more than six to nine months away, but they still constitute a small minority. Nevertheless, some ebaracteristics of a retiring boom seem to be emerging and will bear close scrutiny in the month immediately ahead, particularly after the obvious catch-up aspects of the economy's perform-ance during the current quarter

have run their course. In a panel discussion nt last week's steel industry convention in New York, Prof. Burton Malkiel of Princeton University noted the length of the current boom and termed it not surprising in view of the duration and depth of the recession that preceded it for 16 months in 1974 and 1975. But then be raised the question so many are asking: How much longer can it

3 Threats to Expansion

Prof. Malkiel, who was n member of President Ford's Council of Economic Advisers, listed three ways that economic expansion could be ended; Imbalances develop in inventories, investment or spending; the underlying forces of to restrictive monetary policies that spending for housing, autos and the likelihood of a recession in the

New York Stock Market

NEW YORK, May 28 (NYT) — Gloomy torecasts, emanating from

Washington as well as Wall Street, about prospects for higher consumer

prices, higher interest rates and higher inflation rates combined last week

By Friday most of the nation's major commercial banks bad raised their

As for the stock market, the Dow Jones industrial average told the story

Strong sectors of the stock market included the gaming issues (with

legalized gambling starting in Atlantic City, N.J., over the Memorial Day

weekend) as well as the copper group and some conglomerate issues.

Volume on the New York Stock Exchange fell to 143.2 million shares,

While over-the-counter stocks suffered setbacks last week along with

listed issues, this sector of the market has proved popular for many indi-

vidual investors who search for companies that, in many cases, are rela-

tively unknown. Volume has boomed, along with prices, in the over-the-

Turnover in NASDAO issues, composed of some 2,550 over-the-coun-

ter companies, amounted to nearly 950 million shares between Jan. 1 and

May 17 of this year. That represents an increase of 33 percent from the

turnover during the first four and a half months of last year. At the same

time, volume rose 26 percent on the New York Stock Exchange and 17

percent on the American Stock Exchange, the nation's leading listed mar-

kets. The total turnover in NASDAQ issues ran three times as much as

The interest in over-the-counter issues, according to brokers, stems

from a number of factors. Many of these stocks were beaten down to

extremely low price-earnings multiples in the grueling bear market that

Bank trust departments, mutual funds and other institutional investors

Neither of the other panelists at previous fast growth of consumer economic consulting firm - saw

"I don't see any of the signs of recession," Mr. Heller remarked. "Business and industry are still hiring people with verve and gusto. That's as good an index of business confidence in the future as anything. And I don't think the consumer is going to let us down

Mr. Rinfret said he didn't "see a recession coming in the next 12 to 15 months," but he expressed concern over rising inflation and the "disgraceful trends" in capital formation and productivity.

Nervous About Inflation

It is the fear that an already elevated level of inflation will be mov-ing higher in coming months that has everyone on edge, even top gov-ernment officials who had not ac-corded it much attention until the last couple of months.

Robert Strauss, the president's chief envoy to businessmen and labor leaders in his effort to gain voluntary compliance in a program of price and wage deceleration, has been warning of further inflation ahead. And Barry Bosworth, director of the Council of Wage and Price Stability, exercised the administration's jawboning tech-nique in trying to head off a poten-

tially high wage settlement in the pulp and paper industry.

Publicly at least, government of-ficials remain confident that inflationary pressures in the food sector will ease after midyear. So does Mr. Heller, who is counting on good results from the administration's anti-inflation program, although be concedes that the effort "should have been started a year ago on the supply side."

Many private economists and businessmen are not so confident

Gold is a vital part of any investment portfolio providing a long-term hedge against capital erosion. What, then, has been preventing you from investing in gold? The formalities of buying and selling it? The difficulties of handling it? If so, take a look at the Krugerrand.

The Krugerrand is a gold coin containing exactly 1 troy ounce of fine gold. As it is legal tender you can buy it at practically any bank. Without fuss. Without formalities. Just put your cash on the desk and carry off your Krugerrands. Now, the other side of the coin: economy. The Krugerrand doesn't carry a collector's surcharge. And its gold premium is the lowest of all gold coins - only 7%. So the Krugerrand is the best buy

when you consider gold.

And the most flexible gold when you re-sell it. Because again there's no red tape.

And its coin form enables you to sell it exactly the way you would like to: ounce by

So whichever way you look at it, it's not only an ounce of pure gold. But also a pound of pure common sense.

Krugerrand The cash-and-carry gold.

Traded by banks in Germany, United Kingdom, Switzerland, Netherlands, Belgium, Luxemburg, Austria, Denmark, Andorra.

Favorable Business Development Continues.

During 1977 Deutsche Girozentiale - Deutsche hommunalbank - ("DGZ") again improved its overall performance. Business volume increased by DM 15 billion to a total of DM 20.7 billion. This growth was mainly attributable to further expansion on the wholesale banking operations.

With a banking tradition dating back to 1918. DGZ strengthened its position as a bankers' bank with special emphasis on domestic and international medium and long-term finance to corporate clients. governments, state agencies as well as central banks.

Underwriting operations again developed very tavorably with the Bank participating in nearly all Euro-DM loans as well as in most other Eurocurrency syndicates and an impressive number of private placements. All in all, the Bank was a partner in 262 loans to foreign borrowers and in 14 equity issues.

The Bank's medium and long-term lending potential was greatly enhanced by the favorable situation on the German capital market on which DGZ places its own issues with a broad clientele. of institutional and private investors.

Securities trading achieved again a considerable increase and a steady flow of newly

acquired clients both at home and abroad played an important role.

Highlights from 1977	DM millions
Balance Sheet Total	19,934
Due from Credit Institutions Debentures and Bonds Receivable from Non-Bank Clients Fixed Assets	5,965 2,617 10,222 115

1977 a good year for Hypo-Bank

Growing international business... new branch opened in New York

Hypo-Bank, Germany's oldest publicly-owned (jointstock) bank, continued its steady pattern of growth in 1977. The unconsolidated balance sheet total advanced to DM 39.6 billion, and consolidated assets recorded a new high of DM 54.6 billion as compared with DM 46.1 billion the previous year.

International banking contributed significantly to the Bank's overall success in 1977. Both the number and volume of ahort and medium-term trade financing transactions rose considerably, particularly buyers' credits and a forfait financing. Security dealing, foreign exchange operations, and international underwriting activities also posted substantial

Hypo-Bank's subsidiary in Luxembourg, HYPOBANK INTERNATIONAL S.A., also reported excellent results for 1977. tt increased its volume to Lifrs. 41 billion (DM 2.6 billion) with a corresponding growth in earnings.

Further steps were taken to expand Hypo-Bank's international activities. The Bank converted its representative office in New York into a full-service branch to provide a full range of services to American, German, and other international corporations in the United States. For additional international flexibility, a branch was also opened in the Cayman Islands.

The prospects for continued progress are good. Through a global network of subsidiaries, affiliates, representative offices and partnership in ABECOR, Europe's largest international banking group, Hypo-Bank offers client-oriented services worldwide.

For your copy of our Annual Report, please contact our International Department, Theatinerstrasse 11, 8000 Munich 2. Tel.: (089) 2366-1, Telex: 0523468, S.W.L.F.T.: HYPO DE MM

William D Baird Jr. Vice-President Chemical Bank. Photographed in Florida crop beds prepared by International 1086 tractor.

President and Treasurer Frank Milnor has to be as multinational minded as his company.

So has his Chemical banker. Denny Baird.

International Harvester employs many financial institutions. But the International Harvester out the world.
So when Milnor and his team saw
an overseas need. Baird and his team
could provide quick response. With
financing for International Harvester's
exports to Iran. Cofombia and Venezuela. With lines of credit for International Harvester's subsidiaries in Canada and the U.K. And with foreign exchange assistance out of Chemical Bank's Zurich office.

At the same time, U.S. needs

haven't been neglected. Recently. competitive pricing and fast turnaround have helped Baird furnish a multimillion dollar financing package for the International Harvester Credit

While theirs is a professional relationship. Milnor and Baird will tell you that it's also personal and rewarding. That's what usually happens when corporate officers get together with Chemical bankers. And what results is bottom line benefits for both the company and the bank.

The difference in money is people. **CHEM**10

ave a beavy burden placed on hem overseas in financing balance (-payments deficits of other counries. So a reduction in interbank ending to make room for the other wo types of lending seems likely to

nsue analysts contend.

At the moment, the Eurodollar parket seems be over-liquid in the ense that banks have been forced ver the past several months to he cost of funding in the interbank tarket and the return on lending. However, John Waage, vice

er Trust, recently told reporters in ondon that he believes that this hase is about over. He noted that U.S. banks are not particiating in low-margin loans. He pre-icted that lending margins will

iden in the coming months.

For the Eurobond investor, a for the Enropond investor, a adening of lending margins should appresent an early warning signal for investment in floating-rate stes issued by banks. The FRN's ave been very popular recently beaute the interest rate is fixed twice year at 0.25 point above six-onth interbank Eurodollar of-ered rates and, hence, the yield ses with ohori-term interest rates. However, conversations with

bankers involved with FRN's indicate that the banks have been the biggest purchasers and also the biggest marketmakers in FRN's.

One of the main reasons why banks have been purchasing so many FRN's issued by other banks is that lending margins for alterna-tive medium-term Eurodollar bank loans have been so low, bankers

However, as lending margins widen, banks may well attempt to reduce their holdings of 0.25-point-margin FRN's by selling them in the market. Furthermore, if credit conditions do tighten progressively. some banks may find that they have to pay a premium in the inter-bank market to fund their holdings of FRN's, which would be another reason for selling them. Finally, since banks include their holdings of FRN's in calculating their lending limits to other banks, the liqui-

cause they doo't expect sufficient cooperation from labor and from the government itself in holding down spending and the federal def-icit. There is some evidence that consumers also harbor doubts that inflation will recede and have begun to do some hedge buying of big-ticket items for fear that prices

'Going Up, Not Down'

will be higher later.

"I think inflation is going up, oot down," said Mr. Rinfret. "In the period from 1947 to 1965 the Consumer Price Index rose about 2.5 percent a year. In the years from 1966 through 1971 it went up 4.5 percent a year. And in the period from 1977 to 1977 it advanced from 1972 to 1977 it advanced about 7.7 percent a year. Now the rate is close to double-digit figures. I agree industry should cooperate to try to hold it down, but let's get an equal commitment from George

Meany and the government."
Prof. Malkiel said he found

"hard to be very optimistic about inflation prospects." He said the stage was set for a higher underlying rate of inflation than the 6 percent level of the last few years, though he doubted that double-di-git inflation is "just around the

The investment world was also beginning to show signs of worry

about inflation last week after baving largely ignored the issue during the stock market's explosive rally market's explosive raily that began in mid-April. While the market was using strongly for five weeks in beavy trading that aver-aged about 40 million shares a day on the New York Stock Exchange, investors seemed to be more impressed with the turnsround in the

value of the dollar internationally and with the hope that the Carter administration would act resolutely to stem inflationary forces.

Last week, however, the stock market turned lower, and the trading pace fell below 30 million shares in two sessions. The net loss, however, was moderate for the five

Japan Company To Buy Failing U.S. Grain Firm

MEMPHIS, May 28 (AP) — Cook Industries Inc., once the world's fourth largest grain-merchandising company, has approved plans to sell seven grain elevators and an export elevator to Mitsui &

of his family control more than half

Co., a Japanese grain corporation.

The action on Friday was a foregone conclusion because board chairman Ned Cook and members officials said that the profit from

the sale of the grain-merchandising The company will receive almost \$54 million for the grain opera-tions, a price that includes \$12.7 million in debts. The assets were valued at \$21.25 million but Cook

of the 3.7 million common shares the sale will be swallowed by costs of the company and had an of ending grain operations and by nounced their intention to vote for

Cook was one of the leading U.S. grain-trading firms until last year, when it lost more than \$80 million. The company began selling its as-sets and last month announced that it was ending the cotton-trading operations on which it was founded in 1919.

SAVE THE WHALE

By Michael Koepf. McGraw-Hill. 256 pp. 58.95.

Reviewed by John Leonard

RECENT edition of The New A York Times ran a slory reporting that the Fund for Ammals, "spearheaded by Mary Tyler Moore and Princess Grace of Monaco," has protested the annual Calaveras County jumping frog cootest "as a cruel exploitation of frogs." I am serious. This was a serious news item. Where is Mark Twain when we oeed him? One thinks of symmetries a least required. thinks of grenouilles a la meunière. One also thinks of Luigi Calvani.

And ooe sighs.

What else can you do with such ioformatioo except sigh at it? Well, if you are Michael Koepf, you can conven it—or information very much like it—into ao extremely fuony first novel that does roughly for the ecology movement and the California counterculture what Savooarola did for Florence. It is as if Holden Caufield had written

Moby Dick." Meet Stanley. He didn't like Vietnam he doesn't much care for college life, and he can't stand an office job in the city: "The highest emotion in any relationship in my emotioo io any relationship to the life had always been reducible to us." Stanley meets Big Lorraine, who is into everything that anybody can get toto or behind. Stanley and Big Lorraine go off to the Meodocino woods, which are full to the latest freeze and drong the latest freeze of Sufis and Jesus freaks and dropouts with trust funds and welfare cheats and organic mushroomheads. Stanley is living in a water tank in the Meodocino woods. reading Virgil, when he meets Jorgi and Janett, and we are off.

That's how adventures start." Stanley observes, "out of a stupid favor or 'what's the time of day?' I'm sure Ulysses must have pulled the same scam on countless fellows, oever directly announcing 'Hey, how about rowing across the sea with me to fight a war and get eateo by a bunch of pigs?"

If Stanley is the Ishmael or the

Nick Carraway of "Save the Whale," Jorgi is a combination of Ahab and Jay Gatsby, with a bit of Felix Krull thrown in for season-ing. He dreams not of revenge or Daisy, but of cash: "What I need is some cush. And that need is loftier than you think...for cash is how we measure out the essences-how the energy is divided up and distributed according to need." According

Solution to Friday's Puzzle

10. Jorgi, reason and logic and eth.

ics are nowhere: "Magic that's what you're talk-ing about, Voodeo thoughts cooked up by queer Greeks thousands of years ago. A equals B, B equals C so C equals A. Word games cooked op by a faggot warrior class sock-ing off the fat of the land, and teaching young boys how to ching, spears. Neat and they thoughts haven't produced a neat and tidy world. It's kinky chaos all around us. Order and harmony in the world are always cooked up by guys from small towns. Athens population two thousand. Descrip-tion and use, these are the only

meaningful principles."
Not for the first time, and I hope not for the last time, either, an analogy is proposed between what frying Howe identified as "the psy-chology of unobstructed need" in the 1960s (the Norman O. Browning of America) and laissez-faire economics. To acquire cash, and only incidentally because Janett is pregnant, Jorgi will do anything from foraging for "space-age metals" to stealing abalone at high tide on state property. He is the anarchist-entrepreneur.

anarchist-entrepreneur.

It is Jorgi who finds on the beach
a dead 30-foot killer whale. He
talks Stanley and Janett into helping him pump it full of formaldehyde ("death's own bathwater"). varnish it to a high shine, load it on a flatbed truck and haul it to every shopping center in California to warn against man's inhumanity to other mammals, and to collect liberal guilt money, (Secretly, Jorgiknows: "Whales don't give a s-about us,") They will sell bumper-stickers. They will even, at Pebble-Beach, sell golf balls with blue whale insignia, called whale balls.

As might be expected, this campaign to save the whales and turn a profit works better at a shopping center in Palo Alto, where the rich hang out, than at Santa Rosa, where the hardhats hang out. "That dead whale of yours never had to pay oo welfare." On the other hand, the Palo Alto rich have their own political uses for Jorgi's whale, which goes to Sacramento, where a with-it governor presides over a government by demonstration." hen I tell you that, in Sacrameato, the truckers and loggers-screaming "kiss My Axe"—attack the Sierra Club and are in turn firebombed by the Amerindians, I've

only begun. The whale begins to rot. It seems to me that Koepf, incorrighly witty, has some profound; things to say about garbage, capi-talism, liberals, freaks and, of course, the merchandising of the counterculture. His California eye is fine. I believe Stanley when at the end of the caper he concludes that "I no longer cared about ex-panding my awareness, my main concern in life was to be useful." I suspect that Jorgi is Jan Wenner, and the whale is the rest of us.

John Leonard is on the staff of The New York Times.

CHESS

By Robert Byrne

Youth was served black bread and water in the Yugoslav cham-pionship as well-established players made off with the top prizes. Grandmasters Borislav lykov, 44 years old, and Aleksandar Matanovic. 48, the editor in chief of both "Chess Informant" and the "Ency-clopedia of Chess Openings," tied for first place, tallying 10-7 each. In the land of the latest in open-

ing theory, it would seem anoma-lous for an old, outmoded weapon such as the King's Gambit to be reintroduced, even more that it should attain a theoretical, if oor a practical, success. Yet Grandmasler Albin Planine used it very effectively in his encounter with lykov; he lost the game only because of his

impetuous middle-game play.

The defense 3...B-K2 was developed by Alexander Cunningham, probably during his term as British Minister to the Republic of Venice from 1715 to 1720. Its intent is to disrupt White's plan for attack by forcing the king into an awkward position with 4...B-R5cb: 5 K-K2. Oo the other hand, the black KB is misplaced at KR5, limiting Black's chances for making a stand in the center.

lvkov's careful. if not downright stodgy, 5...P-Q3: 6 P-Q4, B-N5; 7BxP allowed Planing to retake the gambit pawn while simultaneously creating a strong central pawn phalanx. This was certainly no refutation of the King's Gambit. Moreover, the subsequent 9 K-Q2 virtually forced lykov to yield the hishop pair with 9...BxN; 10 PxB, since 9...B-B37; 10 P-K5, PxP; 11 PxP. BxN: 12 KPxB would have

been powerful for White.
Once Planinc bad castled with 12
K-B1. White's advantage was clear.
After 12...K-N1, 13 Q-K3, P-QR3. he should have proceeded in posi-tional style with 14 B-B4. Instead, he weakened his dark

squares in the center with 14 P-O5?!, N-K4 for the sake of pursuing an admittedly dangerous but unclear mating attack with 15 R-Q4. His 15...B-B3; 16 R-N4 did prompt lykov to break the line of his pawns by 16...P-B4; 17 PxPe.p., N(4)xQBP, but the white rook became uncomfortably placed after 18 R-N3, N-Q5; 19 R-R3.

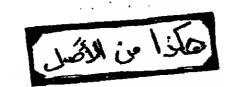

Besides, lykov was able to shace kle what was left of the white cankle what was left of the white conter with 19...B-K4; 20 B-N3, P-KN4!. Thus, after 21 K-N1. R: QB1; 22 B-B2. P-R3, it was difficult for Planine to find a breakthrough, although he might have tried 23 Q-Q3, N-K3; 24 B-R3, keeping some pressure.

Planinc can never resist B dubi-cus chance such as 23 BxP?, PxB; 24 Q-Q3, but granted Ivkov's great defensive strength, the adventure was not likely to succeed. After 24...N-N4: 25 NxN PxN: 26 R-R5.

R-B2. White would have gotten nowhere with 27 RxPch. R-N2.
Against 27 Q-R3, threatening 28 R-R8ch. K-N2: 29 Q-R6mate-lykov came up with 27...QB-3! just in time so that 28 R-R6? would have been ruined by 28...QxPch; 29 K-R1. Q-B8ch, followed by mate.

K-K1. Q-B8ch, followed by male.
The attempted negation of this resource with 28 P-QB4 was put down by lvkov's 28...P-N5!: 29 QxPch. R-N2, forcing 50 R-N3. Planine resigned rather than play 35 KxR, BxP and suffer a hopeless piece-down ending piece-down ending.

Injured Borg **Beats Panatta** In Rome Final

ROME May 28 — Bjorn Borg, shaking off the effects of an eye intimity suffered during a first-set loss, captured the Italian Open tennis tournament today with a 1-6, 6-3, 6-1, 4-6, 6-3 victory over Adriano

Panatta.
It took the top-seeded Borg, who hart his eye when he struck himself with his racket while trying to swat a wasp. 3 hours and 15 minutes to him win. He played steady, consistent

win. He played steady, consistent tennis after overcoming the injury and getting used to the 10,000 noisy fans cheering on Panatta, an Italian, at the Foro Italico.

In the fourth set, the crowd started began tossing 100-lira (11-cent) coins at Borg as he began serving. He picked up the coins, handed them to the referee and continued playing.

In the third game of the fourth set, officials told the crowd, "If you're going to be stupid, go

you're going to be stupid, go home. The crowd then settled down and the match concluded without further incidents.

The crowd behavior was, for the most part, in contrast to Panatta's like Jose Higners. in which booing had been been and cnin-throwing to prompted him to walk off the court was at the start of the third set.

Against Borg, Panatta opened to ha impressively taking the first set

Huge Welcome For Canadiens

MONTREAL, May 28 (AP)

— It may have been the Mon-treal Canadiens' third Stanley Cup in a row, but hundreds of thousands of their fans were

anything but blase as they wel-comed the bockey team home. The fans stood six-deep in some places along the route of the parade Friday bonoring the team for its 4-2 victory over the Boston Bruins in the best-of-seven National Hockey League

final series.

The beer flowed freely in bot weather as Jans watched the parade inch its way from the Forum to City Hall, ft took the procession about 4½ hours to make the six-mile trip.

Why all the furor over a vicinry that many fans were predicting even before the finals

began? Jean Belivean, a former Canadiens center and now the team's vice-president, explained it this way. "Hockey is more than a sport for some of them. It's like a religion. They all came to pay their respects.

The team captain, Yvan Cournoyer, and the assistant captain, Serge Savard, led the procession, perched on top of a fire truck with the Stanley Cup and a long float trailing behind.

At one point along the route, about 100 children jumped onto the float and their extra weight popped one of the tires.

however, spenl a good part of the set rubbing his injured eye.

Friday night.
Rice's home run in the first inning gave left-hander Bill Lee, 7-1. fifth and eighth innings, giving him eight for the year.

Detroit's Rusty Staub got his fifth homer of the season in the fifth with the bases empty and Jason Thompson hit his 12th in the sixth. Milt Wilcox, 3-2, was the

Yankees 4, Blue Jays 3

At New York, Jim Spencer hit a grand slam home run in the seventh in lead New York to a 4-3 victory over Torontn. John Mayberry homered twice for Toronto but Sparky Lyle, 3-1, hung on in relief for the Yanks' fifth consecutive victory and 20th in 26 games.

Angels 6, Brewers 5

At Anaheim, Calif., pinch-hitter Tony Solaita singled bome Rance Mulliniks with the winning run in the seventh inning and Lyman Bostock hit his first homer in a California uniform . Sal Bando hit a threerun homer for Milwaukee and Ben Oglivie added one with nobody on.

A's 3. White Sox 1

At Chicago, Alan Wirth and Bob Lacey combined on a six-hitter as Oakland recorded its first victory under manager Jack McKeon. The A's scored two runs, one of them unearned, off Steve Stone in the fourth inning on Mitchell Page's single, an error by first baseman Lamar Johnson, Mario Guerrero's infield out and Dave Revering's

Mariners 6, Rangers 4

At Arlington, Texas, Scattle broke a 3-3 tie in the seventh when Bill Stein led off with a single, was sacrificed to second and Craig Reynoids singled off Doyle Alexander. Ruppert Jones greeted Paul Lind-blad with an RBI single and Reynolds delivered another run-scoring

Orioles 4, Indians 3

At Baltimore, Billy Smith, who tied the score with an eighth-inning homer, doubled home the winner in the ninth following Doug DeCinces' two-out single and a walk to Larry Harlow. Cleveland nutfielder Ted Cox argued that he caught DeCinces' single, but umpire Jim Evans ruled it a trap.

Giants 6, Dodgers 1

In the National League, at San Francisco, Willie McCovey drove in five runs in San Francisco's 6-1 victory over Los Angeles. His tworun single and three-run homer, the 497th of his career, backed Bob Knepper's six-hitter. The left-handed Knepper. 6-2. lost his shutout Palomino Keeps Title bid in the ninth when Ron Cey hit a home run for L.A.

Reds 3, Padres 1

At San Diego, Tom Seaver, 4-4, recorded his third straight victory with 723 innings of six-hit pitching, and Johnny Bench lut a solo homer in the ninth inning for Cincinnati. Seaver struck out six and had a shutout going into the cighth in-

Braves 4, Phillies 2

At Atlanta, Phil Niekro, 5-6. pitched a six-hitter and had a shutout going into the eighth inning as Atlanta dealt Philadelphia its eighth loss in a 10-game road trip. Niekro also singled in a run in the Braves' two-run second inning and yielded only pinch-hitter Jerry Martin's two-run bomer in the eighth. He struck out five and worked out of a jam in the fourth when he retired Mike Schmidt Gree Luzinski and Richie Hebner in order with runners on second

Pirates 2, Expos 1

At Pittsburgh, Manny Sanguillen hit a two-run bomer in the seventh as John Candelaria, 4-6, pitched 745 innings for Pittsburgh's victory over Montreal. Kent Tekulve got his fourth save. Larry Parrish hit a

solo homer for the Expos.

Cubs 6, Cards 0 At St. Louis, Dave Rader drove in four runs with n single and a triple, and Chicago left-hander Dave Roberts, 2 -0, making only his second start of the season, scattered seven hits for the sbutout. The loss was St. Louis' 13th in 14

Astros 5, Mets 4

At Houston, Jose Cruz's two-rain homer in the sixth inning provided the winning runs, and Jesus Alou hit his first home run since 1974, a three-run blast in the third, to help Houston snap a four-game losing streak and give Mark Lemongelio his fourth victory against five loss

20 Are Injured At Belgian Race

CHIMAY, Belgium, May 28 (Reuters) - More than 20 spectators at the Grand Prix de Frontieres motorcycle race here this aftermoon 'were seriously injured when a contestant lost control of his machine and it plowed into the

Officials at the course said that three of the spectators were in critical condition at a local bospital. where the 20 were treated. Two of the injured had to have a leg amputated, the officials said.

The accident occured during the sixth lap, when Herve Regout, a Belgian racer, lost control of his machine. He fell off, but the motorcycle continued racing and went into the stands. Regout, who slid several yards,

narrowly escaped serious injury as several other racers avoided him.

LOS ANGELES, May 28 (AP) Carlos Palomino overcame a slow start and an injured left hand to win a unanimous 15-round decision over Manda Muniz yesterday and remin his World Boxing Council welterweight championship. Palomino was behind on all three official cards after four rounds before he began his comeback.

At San Diego, Ken Griffey collected four singles and scored three runs while unbeaten Bill Bonham won his sixth game of the season to lead Cincinnan to victory over San Diego. The Padres averted a shutout in the eighth when pinch-hitter Don Reynnids drew a walk and Dave Tomlin replaced Bonham with nne out. Tomlin hit Gene Richards with a pitch and Rey-nilds scored on Jerry Turner's double. Gene Tenace homered off Manny Sarmiento in the bottom of the ninth after Cincinnati added

Expos 15, Pirates 1

At Pittsburgh, Montreal gathered 20 hits, led by Tnny Perez's bome run, a single, and a sacrifice fly to crusb Pittsburgh. Rudy May supported his own two-hit pitching by driving in one run and scoring two others. Larry Parrish hit a tworun shat, his second homer in as many nights, and Stan Papi went 4-far-6 while driving in three runs. Dave Cash also went 4-for-6, scored four rups and drove in

Cubs 3, Cardinals 1

At St. Louis, Chicago extended its winning streak to seven games while St. Louis lost its 14th in 15 games as Bill Buckner's dribbler in front of home plate scored Ivan DeJesus from third, DeJesus led off the 11th with a triple off reliever Buddy Schultz, 0-1. One out later, Buckner brought DeJesus home with his infield hit.

Mets 9, Astros 7

At Houston, John Steams scored the winning run on Doug Flynn's single to highlight a four-run eighth inning as New York defeated Houston. Steams also drove in an earlier run with a pinch-dnuble and another with a sacrifice fly in the ninth that scored Elliott Maddox. Butch Metzger, the third New York pitcher, picked up the victory to even his record at 1-1. Red Sox 1, Tigers 0

In the American League, at Boston, Jim Rice's 17th home run of the season backed the seven-hit pitching of Luis Tiant and moved Boston to a 1-0 victory over Detroit. The bomer, in his 45th game of the season, moved Rice ahead of the record paces mainfained By Babe Ruth and Roger

Blue Jays 4, Yankees 1

At New York, Toronto snapped New York's five-game winning streak as Rick Bosetti drove in three of the runs, two oo a tiebreaking triple in the ainth inning, against loser Ed Figueroa. Dave McKay opened the minth with a single and moved up on a sacrifice. After an intentional walk to Alan Asbby, Bosetti unloaded his triple and then scored the final Toronto run on a bunt by Bob Bailor.

Indians 6, Orioles 2

At Baltimure, David Clyde pitched Cleveland to triumph, his third straight victory and his second in six days over Baltimore. Johnny Grubb, Buddy Bell and Willie Horton drove in two runs each for Cleveland.

A's 4, White Sox 3

At Oakland, Chicago dropped its sixth consecutive game as Oakland rallied for a 4-3 victory in 10 innrallied for a 4-3 victory in 10 im-ings. Jim Essian, traded by the west White Sox to the A's this spring, delivered the winning run with a 10th-inning single that scored pinch-runner Mike Edwards from

Mariners 3, Rangers 2

At Arlington, Texas, Toby Harrah bit a lifth-inning sacrifice fly for the winning run and Jon Mat-lack received relief help from Reggie Cleveland as Texas defeated Seattle. Matlack, 5-5, yielded only six hits until he ran into trouble in the ninth. Leon Roberts and Lee Stanton singled with one out before Cleveland came on to get the final two outs.

Brewers 4, Angels 2

At Anaheim, Calif., Ben Oglivie drove in two runs with a borner and a single and Lary Sorensen survived two run-scoring wild pitches as Milwaukee defeated California and knocked the Angels out of first place in the American League West, Sorensen, 6-3, scattered eight hits as the Angels slipped one-half game behind the Oakland.

Sneva a Distant Second

Unser Wins Indy 500 For the Third Time

INDIANAPOLIS, May 28 - Al Unser, largely ignored as a contender in pre-race speculation because of development problems with his new Lola, sprinted out of the pack near the 200-mile mark and scored a comfortable victory over Tom Sneva today in the Indi-

It was the third Indy 500 tri-umph for Unser, who will celebrate his 39th hirthday tomorrow, when he accepts a check for about \$250,000 at the victory dinner.

He lost his most persistent chal-lenger in the race when the early pacesetter. Danny Ongais, rolled off with a smoking motor in his Parnelli, with slightly less than 100 miles left.

Teammates Gordon Johncock and Steve Krisiloff were each one lap down in the third and fourth positions, respectively, after being penalized the equivalent of a full circuit around the 2½-mil e Indian-

circuit around the 2½-mil e Indianapolis Motor Speedway for pit road
and caution flag violations.

Janet Guthrie, the first female
entry, ran consistently all afternoon
and was credited with ninth place
unofficially, pending the official
posting tomorrow morning.

Unser struggled all month for
speed from his new Cosworthpowered Lola. The first Lola,
which turned a lap at 202 miles an
hour in tire tests here in March,
was destroyed in a crash weeks ago, was destroyed in a crash weeks ago, and Unser said the second car was not its equal. He qualified fifth, at 196.474 mph.

Second Year Second

Tom Sneva, a runner-up for the second year in a row, was half a mile back at the finish, closing slightly near the end as Unser backed off to save fuel. Unser, the winner here in 1970 and 1971, averaged 161.363 mph - just under the Unser broke up a close duel be-

tween Ongais and Sneva when he moved in front on the 76th of 200 circuits. Except for pit stops, Unser led most of the rest of the distance. He said his car performed well enough most of the day, but developed some handling difficulties late

in the event. Mario Andretti's charge from 33d spot stopped as soon as he reached the top 10, just 50 miles into the race. He used the caution lags to his advantage before a wire went dead, shutting his motor off. It was changed, but he was out of contention by then. He continued to drop back with engine problems.

The engines were started with a variation of the famous command. "Gentlemen start your engines." Out of consideration for Guthrie,

the call, "Lady and gentlemen start your engines," was given by the speedway's chairman of the board, Mrs. Mary Hulman, widow of Tony Hulman, who had given the command for 30 years.

The command brought a throaty roar of approval from the crowd, estimated at 375,000. This was the fastest field in histo-

ry. Cars going a mere 187 mph couldn't qualify this year when the slowest car to make the field went 187.266 mph. That was driven by Jerry Sneva, brother of Tam Sneva, who, for the second straight year, won the pole position with a record four-lap qualifying speed — this time at 202.156 mph. Three nther drivers qualified at better than 200 mph; two more did it in practice.

Somebody Behind Him

Jerry Sneva didn't start from last place. Andrewi, one of Sneva's teammates on the powerful Roger Penske entry, won that dubious honor. Andretti, the 1969 winner, was unable to qualify his Penske-Cosworth last weekend because he was in Belgium winning a Grand

back of the field as there was up front. Andretti started from the 33d position, and the seventh row was loaded — A.J. Foyt, Bobby Unser and Pancho Carter, All had cars good enough for the front row; for various reasons, all were unable

to qualify in the first session.

The field averaged 192.584 mph in qualifying, breaking the record of the tragic 1973 race of 192.329.
Last year, the 33 starters averaged 189.488 mph. After 1973, when two drivers were among four persons drivers were among four persons killed, the U.S. Auto Club changed its rules, mostly to slow the fragile. single-sear cars.

Accelerated Changes

Evulution and engineering re-

"But they're a lot safer today at these speeds than they were 10 years ago at 170," said Tom Binford, who became chief steward at the Indianapolis Motor Speeds at the Indianapolis Motor Speedway fullowing the 1973 race and who has not had a fatality at the track.

Off to the 'Festival':

By Rob Hughes

which for scope and size, for sport

in its sheer hugeness in the world today, ranks second anly to the Olympic Games — starts in Buenos Aires on Thursday, Argentina is a land, we are all almost siek of knowing, wracked by internal war. And yet there we are about to witness one of the most colossal gambles of our time. World sporting events are played out on so many levels — the simple level of human endeavor, the political and nationalist level, the massive industrial and sponsorship investment - it would, in any other

sides agree thousands of lives have been lost or ruined these last two years, not even a sponing ostrich can ignore the fact that if, in the next month, one single person connected with soccer is killed, then the world will condemn not only Argentina but also Fifa, the international rulers of soccer, and its committee of men who stood by the decision to stage the World

Cup there. A Need to Believe

They, and those of us in any way connected or following sport, have to believe the game is worth playing, warth the risks of the modern

Right now the last of the 16 finalist nations are bedding down their camps amid the strictest security arrangements of their lives. There have been some, notably Johan Cruvif and other senior Dutch players, whn declined the risk and the unsavory aspects of living with the gun. Nn one should

blame them. There are surely others - one of whom I have personal knowledge of - who shelter behind an injury, real or not, to stay away. That is

The Soccer Scene

Some Late Thoughts

LONDON, May 28 (1HT) — their choice, but for every one there soon it begins: may it end well.

The World Cup, soccer's four-yearly international "festival" — their choice, but for every one there are hundreds who will never forgive them the trip.

their circumstances for denying them the trip.

Andy Gray, for example, is a young Scot who believes, as many in Britain do, he is the best goalscorer his nation possesses. He sufferd an injury months ago, appeared to have recovered, and then found that his manager had chosen athers in his place. He is hitter, upset. He will never accept that it was anyone's right to deny him this platform.

Live and in Color

Gray will watch, as Argentina claims 2,000 million will, the World Cup — his World Cup — on televi-sion. He will get a view distorted as all television versions of any event mest be. But in his own mind it will be further warped by his own disappointment. If - and it is likely tournament because of a lack of goals, he will have in choke hack the belief that any international goalkeeper must have to succeed,

that he could have scored.

There are, of course, other Andy Grays in other countries, grown men who in private will shed tears at not being a part of the effort. There will be others — such as Danny McGrain, Gray's Scottish international colleague, such as Stanislaw Terlecki of Poland who. until the very eve of the tourna-ment, believed they were to play and were struck by injury. There will be nthers who play when they si ouldn't, men who will risk their future, perhaps by taking painkillers to overcome injury, who will compete. Jose Reinaldn of Brazil. for example is, at 21, probably the one player who can shoot the goals to give Brazil the title; he also knows full well that his injured knees, from which all four cartilages have been removed, may nnt stand up to the brutal treatment

World Cup defenders would unbesitatingly inflict. Yes, there are many and exhausting levels even of human expecta-

Mixed Rewards

And for what? Financially, most World Cup players could expect to earn a straight bonus in the region of \$35,000 if they win, but that is peanuts compared to what, for example, Zico of Brazil could pick up from a move to Barcelona of Spain or Rivelino, his captain, in a move to Cosmos of New York. The World Cup will also be a market place, with Americans bidding high, with the Iron Curtain players trying in secure their freedom to gather the West's riches.

However, for the majority of players, even those who, like the Dutch will bave hargained most fiercely for their purse, there is, I am convinced, the deeper basic urge of a competitor to want to play on the world's largest stage, to want to prove himself among the best there is.

There are, would you believe. 22,369,000 players registered to Fifa in the world and so just to play is to be the clite. Some will cheat. others will not at any price and, since these preliminary thoughts have taken the total path of the human level of the event, there will be 42 officials - referees and linesmen from around the world, who will attempt to control and rule. They, too, will be a mixed bag: from the men cowed by the fearfully intimidating nature of South American crowds to men who will

rise and respond to that stimulus. There are, we know, going to be complex and intense interferences. with the purpose of our gathering in Argentina for the next month, At least as we look forward to it all, let us think of it as an event concerning people who happen to play, to rule or to watch the world's most popular game.

being eager to cut a suave figure in Atlantic City, I went to Reno for instruction under a man named

"We'll start you out on slot machines." said Ernie, which seemed appropriate since the entire city of Reno

seemed to be one gigantie slot machine. He took me to one that seemed suspiclously small. Just put your money in the machine. he said.

objected. When I put money into a slot machine. I expect it to give me back 30 pounds of damp aundry. This machine was too small to wash two pairs of socks. "It's not supposed to wash things," said Ernie.

"Of course not," wich, a diet cola? "Don't be silly," said Ernie, "It's

Do I get a candy bar?

a slot machine, It pays off in money. I put in a targe sum of money

quickly. The machine gobbled the money with a series of satisfied clinks and belches and stared at me like a machine that wanted more. This machine is hroken. Ernie.

Let's report it to the management." Ernie said not to behave tike a greenhorn. The machine was designed to keep most of the money put into it so there would be enough in it for some lucky person to whom it took a fancy.

What could I do to make it like

me?
"Put in more money." said Ernie. I did. This apparently angered the machine. It was a machine whose affections could not be bought

Could I not have saved mysell from the humiliation of rejection. in addition to the costs of a trip to Nevada, by taking my week's salary to the 59th Street Bridge and dropping it into the East River?
"True," said Ernie, "but you

would have missed the thrill of

All around us for blocks and blocks thousands of people were and identify want to corrupt public enjoying the thrill of gambling life. I found a slot machine that de-Most of them, people of advanced spised me and pumped a quick for-

NEW YORK—Knowing noth an intensity of purpose and a glassing about gambling and siness of eye that would have apsiness of eye that would have appalled their life-insurance agencies. "You don't have the dedication it takes to make a great slot-ma-chine player," said Ernie. "You're probably a roulette man."

He printed to a large wheel and a small ball engaged in counterrotation.

A quick look at the wheel indicated that the ball had a choice of something like 35 or 40 numbers to come to rest on. I didn't like any of them. I put down a large sum on number one, because it reminded me of Richard Nixon, who seemed to make money at whatever he did.

The hall stopped on number 23.
The ball didn't like me.
"Don't be paranoid," said Ernie.
"There are almost 40 numbers that hall can choose from. When you choose one, it means you got almost 39 chances to lose against only one chance to win." Then why didn't I bet on myself

to lose, since it was almost a sure

Because that's what the house A pack of eigarettes, a stale sand- beis," said Ernie, "and under the rules you've always got to bet against what the house bets." It sounded as if the house could

never lose. "Practicalty never." Ernie said. And what it could never lose was niv money?

"You don't understand the thrill of gambling," said Emie, "The thrill of gambling is what happens to you that big night when you prove to the house that nobodyeven you-can be a sap 100 percent of the time.

I said I preferred laundromat. You hardly ever lost more than a few socks

"You've got no sense of public responsibility." said Ernie. "Do you realize that Nevada needs your money to avoid bankruptcy? That Atlantic City needs your money so it can quit being a crummy, runown dilapidation and become the Queen City of the Eastern Seaboard?

I proposed sending a month's salary to the governor of Nevada and another to the mayor of Atlantic City.

"That would look like you're trying to corrupt public life." said

Most of them, people of advanced spised me and pumped a quick for-years, were pumping their Social tune down its maw, and after that Security checks into machines with my shirt. It was thrilling,

The Art of Grantsmanship in the U.S.

By Lon Tuck

WASHINGTON (WP)-In 1956 a 35year-old man named Joseph Papp walked into the Doris Duke Foundation looking for his first grant. He had only two weapons at his disposal. One was a clipping from The New York Times' Brooks Atkinson lavishing praise upon an outdoor per-formance by something called the New York Shakespeare Festival. The other weapon, he says, was chuzpah.

The Duke Foundation had never before granted money to theater, and grants did not then play their present central role in subsidizing culture. But Papp got \$10,000. and "for the first time I was able to pay my actors-\$25 a week. One of them was Colleen Dewhurst"

Two years later, he started trying to crack the Ford Foundation—and found he couldn't even get his chuzpah in the door. For 15 years, in fact, the foundation held him at arm's length while Papp pummeled it with combination punches. When Ford turned down his grant applications, he accused the foundation of "weasel-wordedmess"—and drew outraged responses from McGeorge Bundy about Papp's "hot temper" and his "personal attack" on Ford Foundation officers. In 1973, Ford finally weakened, and coughed up \$1.5 million to help the indefatigable grantsman take on what was to be a losing battle with the troubled theaters of Lincoln Center.

Perhaps by instinct, perhaps by the exi-gencies of crisis, Joseph Papp learned the ropes of 20th-century grantsmanship—the art and science of talking agencies, founda-tions and well-heeled well-wishers into underwriting your bright ideas-before most American performing arts managers even knew the ropes had been strung up. His New York Shakespeare Festival, once a shoestring operation, is now one the giants of the American stage: It grossed \$30 million last year and employs 300 persons.

Today's graotsman has it easier—he can even take a course in technique, like the symposiums of the Grantsmanship Center, for \$325. He can also rest assured there is much more funding to be had. But strong motivation, plus skill at preparing a persuasive case, is now of even greater impor-

More than a billion dollars a year now go to U.S. cultural grants, and a billion dollars means hard competition. The federal arts and humanities endowments alone directly invest about \$215 million. Cultural grants show up in the hudgets of other agencies. from the Fulbright scholarships to the job programs for artists of the Department of Health, Education and Welfare. State and local governments contribute considerable amounts independently and on a matching basis. Corporate cultural grants alone were estimated last year to be \$221 million, much of it matching the government and the foun-

The style of today's Complete Grantsman varies with the situation. Slick management and persuasiveness helped Anthony Bliss

Grantsman Joseph Papp.

stave off disaster for the ailing Metropolitan Opera. "Fund-raising has become as hard work as the artistic side," says Bliss. And that is also the style of PepsiCo chairman Don Kendall now trying to bail out American Ballet Theater.

But most grant-seekers lack such easy en-tree into high places. Instead, they spend countless hours waiting outside offices and knocking on doors, many of which never open. For people like Steve Stern, of the Otrabanda theater players, personal determination is the best weapon.

And you have to count on the pains and frustrations of losing at least as often you win. Papp still fumes about his relations with the Ford Foundation; "I've never met MacBundy, but I guess that if I had I would have punched him in the nose."

When the first request for a National Arts Endowment theater grant for the Otrabanda Company plopped on a desk here in 1971, it probably wasn't takeo too seriously. After all, the idea of aiding a group of players who wanted to float down the Ohio and the Mississippi all summer and set up a stage in small riverbank towns for evening perfor-

mances suggested a boondoggle.
Furthermore, Steve Stern and bis friends
were students at Antioch College, hardly a
citadel of conservatism in those days. Would the riverside audiences be subjected to radical tracts?

So there on the desk the application sat. But Stern was, and is, a serious grantsman and he recalled recently from Otrabanda's New Oreleans office how they finally got attention to that crucial first grant.

"Later that year, we met some people from the Smithsonian at a theater workshop and they really liked our work. So they invited us to Washington for a one-night stand.

"They saw to it that some people from the endowment were there. They were impressed enough that they called us over the next day and went over the application with us. They said we had filled out the form wrong and helped us redraft it. They said that because we had no accounting skills we had misjudged the scope of the project and asked for too little money. Instead of \$10,000 we should ask for \$15,000. We did. and the grant came through.

That launched the first of six river seasons by Otrabanda. In 1974, for instance, they brought their original revue to 28 towns. More recently they have performed period dramas that might have been done under the same circumstances 100 years ago.

Stern and his company are even more dependent on grants than large performing arts institutions. Grants make up 60 percent of the budget. "I have to hustle," he says. Stern says some members of state arts councils along their river course still betray suspicion and doubt about what they are up to. They once seemed assured of a grant from the Ohio Arts Council until the day of the actual vote. A favorable review of their performance in that morning's paper made menuon of an earlier Otrabanda work in which 'people make love in supermarket baskets.

That offended one man on the council.

recalls Stern, "and it did us in."
Anthony Addison Bliss, 64, executive director of the Metropolitan Opera, is a product of Groton. Harvard and the University of Virginia Law School. He is the grandson of Corneius N. Bliss, McKinley's secretary of the interior, and his aunt, Lizzie P. Bliss. was an organizer of the Museum of Modern Art, to which she left ber collection. For most of his career he practiced law at the lordly New York firm of Milbank. Tweed. Hadley and McCloy, while playing active roles on the boards of institutions like the Joffrey Ballet and the Metropolitan Opera.

Bliss believes the key to grantsmanship on a major scale is "being able to get your foot in the doors of potential donors and presenting your case, eyeball to eyeball. It repuires telling the truth and telling it in full

And because his family and professional background get him in where others might not get an audience, and because his career skills prepare him well to present the Met's case, it was to Anthony Bliss that the Metropolitan turned in November, 1974, when it appeared the company might go under. The feeling was that if anybody could obtain the necessary funds, Bliss could, and he certainly has. This past season the Met actully enjoyed its first surplus in years.

In terms of dollars, Bliss, who is the chief administrator as well as the chief fund-raiser, probably has to raise more money every year than any other single official in the performing arts. The Met is the most expensive single such organization, with a \$35 million budget last year. It also has the higgest deficit, \$13.2 million.

Nixon, Ex-POWs Trade PEOPLE: Admiration at Party

About 300 former U.S. prisoners of war held a reunion in Los Angeles Saturday, five years after their release from North Vietnam, and one thing was clear: they still like Richard Nixon. Most of the POWs traveled to San Clemente by bus Saturday night for a cocktail party given by the former U.S. president at his Casa Pacifica estate. Nixon. appearing tanned and fit, told the POWs. "You have left a living legacy that will inspire Americans in years to come." And they responded with similar warmth, giving him a painting of a POW prison uniform hims a point in the last time. form hung up for the tast time. Most of the POWs had signed the painting and it was inscribed with the words: "To President Nixon in appreciation to our commander inchief for his courageous decision that brought about our return. The inscription refers to Nixon's decision to send B-52s to bomh North Vietnam. Nixon gave each POW an autographed copy of his memoirs. Nixon's wife. Pat, who has been ill with a viral infection. did not attend the party. The Nixons' elder daughter. Tricia, was the hostess. Only four reporters were permitted to attend the event and they were kept in a roped-off area and not permitted to speak to the

The 70th birthday of Nelson Rockefeller will be July 8, but his wife. Happy, decided that a few weeks didn't matter one way or the other, so she held a birthday party for him Friday night. A spokesman for the family said that Mrs. Rock-efeller chose the date because she believed that more of the couple's friends would be available over the Memorial Day weekend than in midsummer. The formal dinnerdance was at the Rockefellers' Pocantico Hills estate in Westchester County and was strictly private. The invitations noted: "No presents, please,"

When he reures from the Army in a few days. Maj. Gen. John Sin-glaub, a critic of Carter administration policies, will not be granted disability benefits. In Washington. sources familiar with the case said Friday that this had surprised many of Singlaub's fellow officers. despite a tightening in 1973 of practices that had for years allowed retiring generals and admirals with long service to collect generous dis-ability benefits that could be translated into income tax deductions on retirement pay. Singlauh has served for 35 years, but Army officials said he had been "medically

evaluated" and determined inclinhle for disability benefits that would have given him a substantial tax break on his \$31,455 annual pension. The 56-year-old Singland recently was called to the Pentagon to explain his public criticism d President Carter's decision on the neutron warhead and of the Pans. ma Canal treaties. Shortly after ward he announced his retirement

Friday was the 71st birthday of John Wayne, so this is as good a time as any to report on his reco peration from heart surgery. The actor said that he was getting stronger every day and that he hoped to return to filmmaking in July. "I keep thinking I'm well by when I try too much, I realize I'm not." he said. "It turns where they cut me open." Wayne, on the ment at his home in Newport Beach Calif., underwent open-heart sur-gery in Boston April 3 to replace a faulty aortic valve. .

Mayor Leonard Haber of Midth Beach had agreed to host a pury sponsored by the National Organization for Women to raise fund for the support of the Equal Rights Amendment, but the party has been canceled because of the up roar caused by the fact that Mary St. John, a lobbyist for prosints, was to be the guest of bonor. The cancellation was announced by Barbara Smith of the Dade Count chapter of NOW. Each of the 35 invited guests had been asked cootribute \$15 to the lobbying fort for the amendment, she said and the party was to have been held at the Haber home Jime 2 Haber said the gathering was called off because "there was a lot of dis sension that covered the gammt of human emotions, from approval to disapproval to shock to joy."

A man on crutches hobbled off a commercial airliner Friday at the irport at Montgomery, Ale hailed a cah and was driven to it nearly Maxwell Air Force Base 1 was John Mitchell, the former at torney general, who checked but into the federal mis imum-securing: prison at Maxwell to resume servi ing his one-to-four-year sentence.... for his part in the Watergate covery up. Mitchell, who arrived in a pale. vate jet when he first went jung, prison 11 months ago, has been on medical furlough for more than fee months. He will be eligible for parole June 21.
